For the midterm exam, you can use a hard copy of the textbook and a hard copy of the lecture notes. For the final, you can use a hard copy of the textbook, a hard copy of the lecture notes, and a calculator. International students can make use of a standard **hard copy** translation dictionary.

You **cannot** use any other electronic devices (not your computer, or your cell phone, or an electronic translation device) for either test.

You **cannot** have any windows open on your computer other than the exam window. You **cannot** have mini-test questions and/or answers at these tests. Mini-test questions/answers are PROHIBITED for these tests and having them represents cheating.

**In-class students** must take the midterm and the final exam in the College of Business computer labs (or with advance permission by me at another proctored testing site, or with advanced permission and for a fee they can use Proctor U).

Web-based students MUST take the midterm and the final exam using Proctor U.

<sup>&</sup>lt;sup>1</sup>Please note that this refers to the **LECTURES** covered by the exams (Not the chapters). The Class Schedule shows the **CHAPTERS** which are targeted for each lecture (subject to modification as needed).

Mini tests are normally available the Saturday after the material is covered in class (by 5 p.m.) for a minimum of eight days. The deadline is listed in the description for each mini-test. Should a change in this preliminary schedule be necessary there will be an announcement on the class website and the revised deadline will be included in the test description.

\*No mini tests will expire until after the 2<sup>nd</sup> week drop/add deadline listed above. This allows students who add the class "late" an opportunity to catch up (and gives students who are having problems accessing the tests time to work out the bugs).

ACKNOWLEDGEMENTS: The concept for the way in which this course is offered, the approach to testing, and portions of the syllabus are based on the Principles of Marketing class offered by Dr. Bruce Robertson, San Francisco State University (<a href="http://online.sfsu.edu/~robertbc/">http://online.sfsu.edu/~robertbc/</a>). Many thanks to Dr. Robertson for pioneering this method of delivery.

- Three attempts for each ELEC. Each is worth up to .3% added to your final course grade.
- Unlike the mini-tests, for the ELEC's I will record your best ELEC grade (for the mini-tests, I record the grade on you LAST attempt).
- You can earn partial credit for less than 100% on the assignment.
  - Olf you earn an 80% on your best attempt, you get .8 x .3 or .24% added to your Final Course Grade
- Earning a 100% on one ELEC will add .3% TO YOUR FINAL GRADE.
- So, for the 10 assignments you can earn up to a total of a 3% INCREASE in your course grade!!

These are available from the class website Extra Credit Folder on Blackboard Learn (http://learn.kent.edu).

## Introduction to Marketing 25010

I)	Initial Background information: This is based on the syllabus, available from the class web site on Blackboard Learn. You should <b>print</b> and <b>read</b> that document.

Ш	The Prerequisite for this class is:

#### III) Course Objectives

- a) A working knowledge of marketing terminology, concepts, activities, and strategies;
- b) An understanding of marketing functions within the organization and in the context of external environments:
- c) Knowledge of the ways in which marketing contributes to attainment of the organization's objectives and goals;
- d) Developed quantitative and qualitative analytical skills to apply marketing concepts, theories, and tools to solve marketing problems;
- e) An appreciation for the global and ethical aspects of marketing.

#### IV) Policies

The Following Policies Apply to All Students in this Course:

A. Students attending the course who do not have the proper prerequisite risk being deregistered from the class.

B. Students have responsibility to ensure they are properly enrolled in classes. You are advised to review your official class schedule (using Student Tools on FlashLine) during the first two weeks of the semester to ensure you are properly enrolled in this class and section. Should you find an error in your class schedule, you have until Sunday, January 25, 2015 to correct the error. If registration errors are not corrected by this date and you continue to attend and participate in classes for which you are not officially enrolled, you are advised now that you will not receive a grade at the conclusion of the semester for any class in which you are not properly registered

C. Academic Honesty: Cheating means to misrepresent the source, nature, or other conditions of your academic work (e.g., tests, papers, projects, assignments) so as to get undeserved credit. The use of the intellectual property of others without giving them appropriate credit is a serious academic offense. It is the University's policy that cheating or plagiarism result in receiving a failing grade (0 points) for the work or course. Repeat offenses may result in dismissal from the University.

For an excellent review of the topic, browse http://ec.hku.hk/plagiarism/introduction.htm. For a PowerPoint presentation that reviews the topic of cheating and plagiarism (and which reflects my views), browse http://www.personal.kent.edu/~lmarks/ethics/Plagiarism.ppt. NOTE: The questions for the mini tests are copyrighted and unauthorized reproduction is prohibited.

- D. Course Withdrawal Deadline: For Spring 2015, the course withdrawal deadline is Sunday, March 22. If you need advising assistance, you will need to contact an advisor before Friday, March 20, as our advising offices are not open on the weekend.
- E. Students with disabilities: University policy 3 -01.3 requires that students with disabilities be provided reasonable accommodations to ensure their equal access to course content. If you have a documented disability and require accommodations, please contact the instructor at the beginning of the semester to make arrangements for necessary classroom adjustments. Please note, you must first verify your eligibility for these through Student Accessibility Services (contact 330-672-3391 or visit http://www.kent.edu/sas for more information on registration procedures).

INTERNATIONAL students for whom English is a second language, send me an email to request Extended Time. Once I verify your status, I will give you access to the Extended Time mini-tests, midterm and final.

#### F. Application for Graduation

It is your responsibility to apply for graduation before the set deadline. If you apply after the deadline you will be assessed a \$200 late fee. Please see your academic advisor as soon as possible if you are uncertain as to your progress toward graduation. The graduation application deadlines are follows:

**Graduation Application Deadlines:** 

May Graduation: Apply before September 15th August Graduation: Apply before December 15th December Graduation: Apply before March 15th

To apply for graduation complete the following steps:
Log onto your Flashline account
Click on the Student Tools tab
Look in the Graduation Planning Tool Box
Click on Application for Graduation
If an error message appears, you must contact your advisor.

#### VII) Grades

Th	e Course Grade is based on		
a)	13 "mini" exams (	% of your	final grade), and
b)	a midterm exam worth	%	of your final grade, and
c)	a final examination worth	% of	your final grade.
d)	PLUS any		

## Letter grades

Course Average	Course Grade	Univ. GPA	Course Average	Course Grade	Univ. GPA
92.6+%	Α	4.0	76.6-79.5%	C+	2.3
89.6-92.5%	A-	3.7	72.6-76.5%	С	2.0
86.6-89.5%	B+	3.3	69.6-72.5%	C-	1.7
82.6-86.5%	В	3.0	66.6-69.5%	D+	1.3
79.6-82.5%	B-	2.7	59.6-66.5%	D	1.0
			59.5 and below	F	0.0

Students who want to become Marketing Majors must earn a "C" (2.0) or better in this course. A "C-" (1.7) does not meet this College of Business requirement.

The class DOES use the plus/minus grading system.

IMPORTANT NOTE: Once the grades are in, students <u>get what they have earned</u>. I do not make adjustments for (a) you really, really needing a better grade, (b) your being "only" .3, .2, or .1 away from the next grade, or for (c) any reason other than an error in the calculation. Asking, pleading, crying, and/or offering bribes DO NOT WORK (sorry).

#### VIII) Calculating your final grade

It is fairly common for students to incorrectly calculate their final grade. The correct calculation is:

[(Total of all Mini test scores/13) x .5] + (Midterm score x .2) + (Final exam score x .3) + extra credit = Final Course Grade

Notes: (1) A missed mini-test counts as a 0. (2) Adding your total points up and dividing by 15 is NOT the correct calculation.

For example, suppose you have an average of 85% on the 13 mini-tests, a 70% on the midterm, a 78% on the final exam, and you earned 2.5% in extra credit work.

The grade calculation is:  $(.85 \times .5) + (.70 \times .2) + (.78 \times .3) + 2.5 = .425 + .14 + .234 + .025 = .824$  or 82.4% which would be a "B-" for the course. Needless to say, had you done more extra credit your final course grade would have been higher (for example, adding .5 in extra credit would have earned you an 82.9% or a "B" for the course).

You can download a Grade Calculator Blackboard Learn as a click in the Testing Folder. This is an Excel spreadsheet that will help you calculate how you are doing.

### IMPORTANT NOTES about course grades.

- 1. YOU need to watch for deadlines for mini-tests and extra credit assignments. Once an assignment closes, it is very rare for it to be re-opened. If you have a question about an assignment/mini-test ask about it BEFORE the deadline. This means YOU need to check on your grades and be aware of the deadlines. Once we get to finals week, all mini-tests and extra credit opportunities will have been closed. Do them before their weekly deadlines. DO NOT FORGET TO TAKE THE MINI-TESTS.
- 2. Once the final is taken, your Final Course Grade is calculated using the above formula [(Total of all Mini test scores/8) x .5] + (Midterm exam score x .3) + (Final exam score x .2) + Extra Credit
- 3. THERE ARE NO CHANGES to final course grades made for "being close" to the next higher grade, nor for "only being .1 away" from the next higher grade, nor for "really, really needing" the next higher grade. Students receive the grade that they have earned.

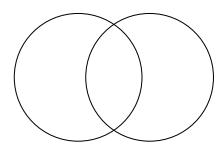

The only possible adjustment to a final course grade occurs when a curve is needed (or if a posting error is made). IF, at the end of finals, there are not a reasonable number of A's (or, if too many students are failing), it is possible that a curve will be created. In this case, a set number of points will be added to

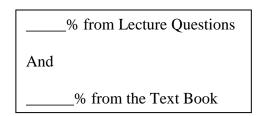

everyone's final course grade. Should this occur, students will be informed via e-mail.

Did I mention that, when it comes to changing the grade which you have earned, asking, pleading, crying, and/or offering bribes DO NOT WORK?

Marketing creates UTILITY; *Utility* is the satisfaction, value, or usefulness a user receives from a good or a service.

i)	– <u>Ben &amp; Jerry's</u> turns cream, sugar and milk into ice cream
ii)	– An ice cream truck brings yummies to your neighborhood
iii)	– Your Walmart Supercenter is open 24 hours a day, 365 days a yearyou can get ice cream anytime you want it
iv)	Consumer value is created by allowing easy transferring of a product's ownership. Time payment, leasing, credit, and debit card purchase strategies can be important in making a product

### XVI) AMA Ethics Statement

http://www.marketingpower.com/AboutAMA/Pages/Statement%20of%20Ethics.aspx

#### http://www.marketingpower.com/AboutAMA/Pages/Statement%20of%20Ethics.aspx

#### **PREAMBLE**

The American Marketing Association commits itself to promoting the highest standard of professional ethical norms and values for its members

(practitioners, academics and students). Norms are established standards of conduct that are expected and maintained by society and/or professional

organizations. Values represent the collective conception of what communities find desirable, important and morally proper. Values also serve as the criteria for evaluating our own personal actions and the actions of others. As marketers, we recognize that we not only serve our organizations but also act as stewards of society in creating, facilitating and executing the transactions that are part of the greater economy. In this role, marketers are expected to embrace the highest professional ethical norms and the ethical values implied by our responsibility toward multiple stakeholders (e.g., customers, employees, investors, peers, channel members, regulators and the host community).

#### ETHICAL NORMS - As Marketers, we must:

- 1. **Do no harm.** This means consciously avoiding harmful actions or omissions by embodying high ethical standards and adhering to all applicable laws and regulations in the choices we make.
- 2. **Foster trust in the marketing system.** This means striving for good faith and fair dealing so as to contribute toward the efficacy of the exchange

process as well as avoiding deception in product design, pricing, communication, and delivery of distribution.

3. **Embrace ethical values.** This means building relationships and enhancing consumer confidence in the integrity of marketing by affirming these

core values: honesty, responsibility, fairness, respect, transparency and citizenship.

#### ETHICAL VALUES

Honesty – to be forthright in dealings with customers and stakeholders. To this end, we will:

- ~Strive to be truthful in all situations and at all times.
- ~Offer products of value that do what we claim in our communications.
- ~Stand behind our products if they fail to deliver their claimed benefits.
- ~Honor our explicit and implicit commitments and promises.

Responsibility - to accept the consequences of our marketing decisions and strategies. To this end, we will:

- ~Strive to serve the needs of customers.
- ~Avoid using coercion with all stakeholders.
- ~Acknowledge the social obligations to stakeholders that come with increased marketing and economic power.
- ~Recognize our special commitments to vulnerable market segments such as children, seniors, the economically impoverished, market illiterates
- and others who may be substantially disadvantaged.
- ~Consider environmental stewardship in our decision-making.

Fairness – to balance justly the needs of the buyer with the interests of the seller. To this end, we will:

- ~Represent products in a clear way in selling, advertising and other forms of communication; this includes the avoidance of false, misleading and deceptive promotion.
- ~Reject manipulations and sales tactics that harm customer trust.

Refuse to engage in price fixing, predatory pricing, price gouging or "bait-and-switch" tactics.

~Avoid knowing participation in conflicts of interest.

Seek to protect the private information of customers, employees and partners.

Respect – to acknowledge the basic human dignity of all stakeholders. To this end, we will:

~Value individual differences and avoid stereotyping customers or depicting demographic groups (e.g., gender, race, sexual orientation) in a negative or dehumanizing way.

- ~Listen to the needs of customers and make all reasonable efforts to monitor and improve their satisfaction on an ongoing basis.
- ~Make every effort to understand and respectfully treat buyers, suppliers, intermediaries and distributors from all cultures.
- ~Acknowledge the contributions of others, such as consultants, employees and coworkers, to marketing endeavors.
- ~Treat everyone, including our competitors, as we would wish to be treated.

#### Transparency - to create a spirit of openness in marketing operations. To this end, we will:

- ~Strive to communicate clearly with all constituencies.
- ~Accept constructive criticism from customers and other stakeholders.
- ~Explain and take appropriate action regarding significant product or service risks, component substitutions or other foreseeable eventualities that
- could affect customers or their perception of the purchase decision.
- ~Disclose list prices and terms of financing as well as available price deals and adjustments.

**Citizenship** – to fulfill the economic, legal, philanthropic and societal responsibilities that serve stakeholders. To this end, we will:

- ~Strive to protect the ecological environment in the execution of marketing campaigns.
- ~Give back to the community through volunteerism and charitable donations.

Contribute to the overall betterment of marketing and its reputation.

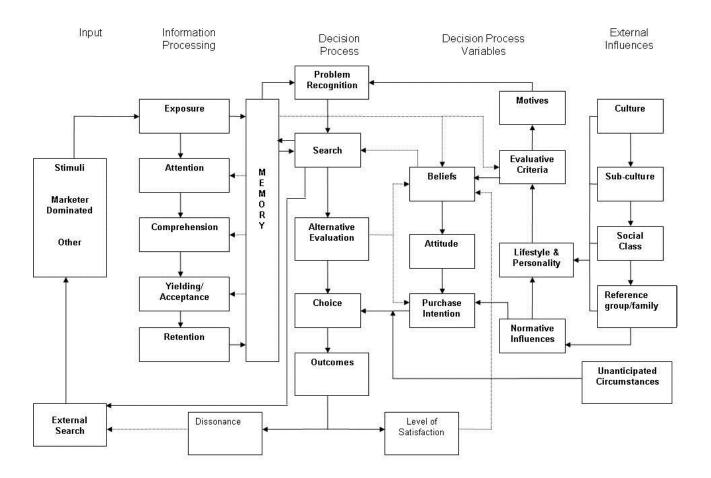

~Urge supply chain members to ensure that trade is fair for all participants, including producers in developing countries.

#### **IMPLEMENTATION**

We expect AMA members to be courageous and proactive in leading and/or aiding their organizations in the fulfillment of the explicit and implicit promises made to those stakeholders. We recognize that every industry sector and marketing sub-discipline (e.g., marketing research, e-commerce, Internet selling, direct marketing, and advertising) has its own specific ethical issues that require policies and commentary. An array of such codes can be accessed through links on the AMA Web site. Consistent with the principle of subsidiarity (solving issues at the level where the expertise resides), we encourage all such groups to develop and/or refine their industry and discipline-specific codes of ethics to supplement these guiding ethical norms and values.

XIII)	Psychological Influences Consumer Decision Making – Perception	
a)	a) is the process of receiving, organizing, a giving meaning to stimuli detected by one of our five senses.	
b)	However, not everyone gets the same meaning from the same stimuli due, in part, to:	
	<ul> <li>i) Selective Perception</li> <li>ii) Selective Exposure</li> <li>iii) Selective Comprehension</li> <li>iv) Selective Retention</li> <li>v) Subliminal Perception???</li> </ul>	
c)	Selective Perception	
	i) Is the process which we use to determine "" to perceive.	
	ii) Due to this selective process, we may omit items, add, or even change what we see, feel, or hear.	
	iii) Selective perception doesn't happen all at once but occurs in various stages including exposure, comprehension, and retention	
•	Male vs. Female – Differences in Perception example:	
d)	Selective Exposure	
	i) From the variety of communication available to them, people	
	ii) They tend to view communication (e.g., ads) that reaffirm preexisting ideas and attitudes, thereby bolstering their image of themselves and what they "know".	
	iii) Marketers need to find ways to "" barriers to perception!	
	- Example:	
	iv) People rarely read Web pages, instead they	
e)	Selective Comprehension	
	i) This involves interpreting discrepant information so that it is	

	(1) It was once reported in a study that of non- smokers believed the link between smoking and lung cancer was proven;
	(2) yet only of heavy smokers accepted the link!!
	Example
f)	Selective Retention
	i) People remember more accurately messages that are favorable to their than messages that are unfavorable.
	ii) People remember the good things and forget the bad. Selective retention thus reinforces one's
	iii) Marketers need to find ways to help consumers to their message.
g)	Subliminal Perception???
h)	SO, consumers perceive marketing stimulibecause each individual is unique in the combination of his or her needs, attitudes, experiences, and personal characteristics.  i) AND, identical advertisements, packages, or products may be perceived
	by consumers
XIV)	Psychological Influences Consumer Decision Making – Perceived Risk
a)	Perceived risk involves the perceptions of the riskiness of the purchase. There are several types that marketers must understand, including:
	i) Risk
	ii) Risk
	iii) Risk
	iv) Risk
b)	Marketers must understand their consumers' perceptions of risk and address them
•	Video Example – Reducing Financial Risk

XV)	Psychological Influences Consumer Decision Making – Learning	
a)	a) Learning involves changes in behavior resulting from observation an experience.	
	i)Conditioning	
	and his	
	ii) Conditioning	
	and his	
	iii) Learning	
	iv) Learning	
b)	Brand Loyalty	
	i) Consumers can to a brand over all othersthis is rather important to marketers!

a)	Based on what they have learned from processing information, evaluating alternatives, making a choice, and evaluating the choice consumers	
b)	form about the stores, products, decision processes, and	
c)	form attitudes ( ) about these	
d)	When attitudes are POSITIVE they	
e)	When attitudes don't exist (e.g., for a new or for an unknown brand) or when they are NEGATIVE they	
f)	Marketers attempt to Change Unfavorable Attitudes (using) by:	

i١	Changing Beliefs About a Brand's
I)	Changing beliefs About a brand's

  - ii) Reference Groups
  - iii) Family
  - iv) Social Class
  - v) Subculture
  - vi) Culture
- b) Personal Influence
  - i) Product Trial, Brand Evaluation, Purchase Decisions, and Satisfaction can be influenced by the attitudes of "others."
    - (1) Opinion Leaders
    - (2) Word of Mouth
      - (a) Buzz

	c)	Market Segmentation – The PROCESS of identifying and describing target markets
		i) Market Segmentation involves into groups, or segments, that:
		(1) Have common needs, and
		(2) Will respond similarly to a marketing action

		ii)	We need to target our market segment by "positioning" our offer we need to define and describe the target market in detail.	; BUT first
III.	Ma	arke	et Segmentation (another view)	
	a)		ne process of dividing the total market for a good or service into senaller, internally homogenous (i.e.,) groups.	
		i)	Members of each group are similar with respect to the factors the influence demand	at

## (2) Psychographic Segmentation

- (a) As the American population becomes more diverse and affluent, demographic researchers are changing the way they define segments of American society.
- (b) \_\_\_\_\_\_ has defined 14 distinct groups of consumers based on recent Census and consumer data that emphasize income, age, and lifestyles. Segments of each group buy the same types of cars, read the same magazines, and watch the same television shows.

- a) What is a "product"?
  - i) A set of \_\_\_\_\_
  - ii) May be a \_\_\_\_\_
  - iii) Which provide satisfaction of \_\_\_\_\_ in the form of \_\_\_\_\_ .
  - iv) And is exchanged for \_\_\_\_\_ (or some other unit of value).
- b) The "Total Product"
  - i) A Broad spectrum [bundle] of tangible and intangible benefits
  - ii) Primary Characteristics:
    - (1) Basic features of the \_\_\_\_\_
  - iii) Auxiliary Dimensions \_\_\_\_\_
    - (1) Example: Crest Complete

Understanding the terms

C)	Product Line					
	i)	A group of closely related products that:				
		(1) a class of needs,				
		(2) are used together,				
		(3) are sold to the same customer group,				
		(4) are distributed through the same type of outlets,				
		(5) or fall within a given price				
	ii)	EXAMPLE: Product Lines at Church & Dwight Co. Inc.				
		(1) Personal Care lines:				
		(a) Antiperspirants & Deodorant				
		(b) Eye Care				
		(c) Fertility				
		(d) Hair Removal				
		(e) Nasal Care				
		(f) Oral Care Products				
		(g) Ovulation				
		(h) Wound Wash				
		(2) Household Product lines:				
		(a) Baking Soda				
		(b) Deodorization				
		(c) Fabric Care				
		(d) Household Cleaners				
		(e) Pet Care Products				
		(f) Wood Care				
d)	Pr	oduct Mix				
	i)	The number of offered by a company.				
e)	Width of Product Mix					
	i)	The number of product lines carried (Church & Dwight is broad; Spyder Paintball is narrower)				
f)	Depth of Product Mix

ii) Based on Durability/Tangibility Classification (goods-services continuum)

iii) Based on CONSUMER'S Interest

## iv) CONVENIENCE PRODUCTS

- (1) Characteristics:
  - (a) Relatively Inexpensive
  - (b) Purchase is regular and recurring
  - (c) Little Thinking Involved
  - (d) Minimal Shopping Effort
  - (e) Bought a most convenient location
  - (f) "Staple" products, like groceries, and
  - (g) Impulse purchases (candy bar?)

## (2) STRATEGY:

- (a) Make available in every possible place
- (b) Must be visible inside the store
- (c) Distribution is a major marketing mix factor
- (d) Easy substitution by similar brands (consumer will accept another brand)

- (e) Extensive advertising is used
- v) Shopping Products
  - (1) CHARACTERISTICS:
    - (a) Product comparisons occur
    - (b) Consumer seek information
    - (c) Decisions are based on thought
    - (d) Relatively higher prices
    - (e) Often technology or fashion oriented
    - (f) Monetary & social risks
    - (g) Brand loyalty may be found
  - (2) STRATEGY:
    - (a) Selective distribution
    - (b) Consumers will seek products in less visible locations
    - (c) Product attributes and Quality are important
    - (d) Product differentiation is possible
- vi) Specialty Products
  - (1) CHARACTERISTICS:
    - (a) Substitutes are not accepted
    - (b) Infrequently purchased
    - (c) Extensive Search
    - (d) Brand loyalty may be strong
    - (e) Loyalty to retailer may be as important as brand selection
    - (f) May travel great distances to acquire
  - (2) STRATEGY:
    - (a) Limited distribution
    - (b) Consumers will seek products regardless of location
    - (c) Extensive product and price differentiation
    - (d) Strong brand image
- vii) Unsought Products
  - (1) CHARACTERISTICS:
    - (a) Consumer does not know about or does not want the product (initially)

- (b) Interest is likely caused by a "sudden or unexpected problem" (rain = umbrella; death = funeral plot)
- (c) The consumer is not likely to be loyal and will accept substitutes
- (2) STRATEGY:
  - (a) Limited distribution
  - (b) Need to advertise so consumers are aware when the need arises
  - (c) May require persistent and aggressive advertising and selling approach

Example: Spectrum Brands Segmented based on Consumer Markets

b)			 							
	 _									

- i) Products that assist directly or indirectly in providing products for resale. Also called *B2B goods*, *industrial goods*, or *organizational goods*.
  - (1) Manufactured materials and component parts: (electrical resistors, screws, electric motors, computer chips, spark plug)
  - (2) **Process materials (raw materials):** used in production, become part of finished product (chemicals, wood, wheat, cotton)
  - (3) **Installations:** primary production equipment and major capital items (buildings, computer hardware, assembly lines, oil drilling rig)
  - (4) **Accessory equipment:** (Copiers, office equipment, cell phone, hand tools)
  - (5) **M**aintenance, **R**epair, and **O**perating Supplies: facilitate routine operations (writing paper, staples, tape, Post-it notes)
  - (6) Services: intangible product provided by others to facilitate the firm's production and operation (maintenance, repairs, trucking, security service, legal advice, consulting)

	(d) Employees get a free day each week to innovate – 50 percent of new products come from this time.				
	(e) Don't politic for your idea, use data – eliminate 'I like' for real data.				
	(f) Give people a vision, rules how to get there and deadlines – creativity loves constraints.				
	(g) Simple to use and easy to love – the money will follow this.				
	(2) Whirlpool				
	(a) Stick with it – it can take up to six years to attain a big payback.				
	<ul><li>(b) Innovation alone is not enough – need operational excellence as well.</li></ul>				
	<ul><li>(c) Be highly practical – inventions have to be something someone will buy.</li></ul>				
	(d) At Whirlpool, sales from new product ideas less than 5 years old were less than \$30 million; today they are more than \$1.2 billion!!

			(4) Setting Price can be hard
		ii)	
			(1) Lack of standardization;
			(2) inconsistent delivery and quality depending
			(3) Minimize by employee selection, training, and
			(4) service performance standards.

iii)	
	(1) Simultaneous production and consumption means
	(a) consumers are a part of the service process;
	(b) We must manage the interaction for customer satisfaction;
	(c) educate consumers about the service process and their role in it.
iv)	
	(1) Services cannot be inventoried, so it is hard to balance capacity and
	demand;
	(2) cannot return service for credit or exchange;
	(3) need to manage demand in peak periods; use capacity in off-periods

VI. Inventory carrying costs of services depend on the cost of employees and equipment

v) Minimum effort
vi) Low wait times
vii) In other words, they demand!
(a) Example: The Casual Dining Industry stopped providing "value"
(b) Casual Dining restaurants provide full-service, alcoholic
beverages, and CHECK AVERAGES from \$10 to \$23 per person
(c) COMPETITION from "fast-casual" chains are stealing customers
(d) Fast-casual chains have no waiters and higher quality food than
fast food chains.
(i)
(ii)
(iii)
(iv)
(v)
IX. VALUE
a)an intangible concept often defined in terms of
i) exceptional
ii) exceptional
iii) value-based

- (a) Example: Casual chains learn from recession
  - (i) During the recession many consumers pulled back on their discretionary spending, which meant eating out at restaurants less frequently if at all.
  - (ii) While economic conditions have begun to improve in the U.S., many consumers are still watching their wallets - preferring to eat at less expensive casual dining chains over pricier upscale restaurants.
  - (iii) Restaurant operators were poorly positioned heading into the recession in 2008 because they had too restaurants.
  - (iv) But the dining chains learned. 30,000 restaurants have closed since then and companies focused more on improving their menus, service and the atmosphere at their storefronts.
  - (v) In 2007, the industry's mentality was "build it and they will come," but today successful restaurant companies are driven by a guest-centric planning process.
  - (vi) That is, casual chains are returning to a "value service proposition."

## X. Competitive Positioning

- a) Service Image is conveyed by the firm's "service products."
  - i) The dimensions used should be those valued by the customers.
    - (1) Example: What DO consumers want in Casual Dining?
      - (a) Stand for something UNIQUE
        - (i) Cheesecake Factory
          - 1.
        - (ii) Outback
          - 1.
        - (iii) Olive Garden
          - 1.

## (b) Lower Prices

## (c) BETTER FOOD

- (i) Casual dining was initially successful because it provided better food quality than fast food, at a very reasonable price
- (ii) Recently, fast food's quality has gone UP with prices rising only slowly
- (iii) BUT, casual dining's price have risen while food quality and innovation has stagnated!
- (iv) RUBY TUESDAY is upgrading its food, but it prices are still pretty high.

## (d) IMPROVED SERVICE

- 1. Slow service
- 2. Discourteous staff
- 3. Are NOT what consumers are looking for!!
  - a. Chili's is trying to cut 15 minutes from its 45-minute lunch by testing BlackBerry's that connect directly from the server to the kitchen.
  - b. Chili's is also improving its employee hiring practices
  - c. And the staff is wearing more professional looking aprons

## (e) Better looking stores

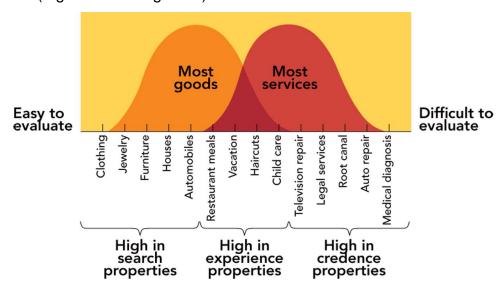

- 1. Most stores are 20-years old!
  - a. Ruby Tuesday has redesigned all of its company-owned stores with contemporary designs and lighter colors.
  - b. Lone Star is replacing concrete floor with wood and is installing oak tables.

## 2. Get kid-friendly

- Families are a big part of the casual dining industry's market
- b. Could restaurants have kid playgrounds? Loaner hand held video games?

XIII.	HC	OW CONSUMERS PURCHASE/EVALUATE SERVICES			
a)	Th	he Purchase Process			
	i)	Properties			
		(1) What consumers can judge prior to the purchase			
		(a) Price, location, appearance of physical facilities, paperwork, interactions with the service provider's staff			
	ii)	Properties			
		(1) Attributes discernable only during or after the service experience			
		(a) Physical comfort; staff concern			
	iii)	Properties
