#### Preliminary Enhanced Learning Extra Credit (ELEC) Schedule

• Three attempts for each ELEC. Each is worth up to .3% added to your final course grade.

- For the ELEC's I will record your best ELEC grade (the same as for the mini-tests).
- You can earn partial credit for less than 100% on the assignment.
  - If you earn an 80% on your best attempt, you get .8 x .3 or .24% added to your Final Course Grade
- Earning a 100% on one ELEC will add .3% TO YOUR FINAL GRADE.
- So, for the 10 assignments you can earn up to a total of a 3% INCREASE in your course grade!!

These are available from the class website Extra Credit Folder on Blackboard Learn (<u>http://learn.kent.edu</u>).

#### Introduction to Marketing 25010

#### **III)** Course Objectives

- A working knowledge of marketing terminology, concepts, activities, and strategies;
- b) An understanding of marketing functions within the organization and in the context of external environments;
- c) Knowledge of the ways in which marketing contributes to attainment of the organization's objectives and goals;
- d) An appreciation for the global and ethical aspects of marketing.

#### **IV)** Policies

The Following Policies Apply to All Students in this Course:

A. Students attending the course who do not have the proper prerequisite risk being deregistered from the class.

B. Students have the responsibility to ensure they are properly enrolled in classes. You are advised to review your official class schedule (using Student Tools on FlashLine) during the first week of the semester to ensure you are properly enrolled in this class and section. Should you find an error in your class schedule, you have <u>until the end of the first week of the semester</u> <u>September 4, 2016</u> to correct the error. If registration errors are not corrected by this date and you continue to attend and participate in classes for which you are not officially enrolled, you are advised now that you will not receive a grade at the conclusion of the semester for any class in which you are not properly registered.

C. Academic Honesty: Cheating means to misrepresent the source, nature, or other conditions of your academic work (e.g., tests, papers, projects, assignments) so as to get undeserved credit. The use of the intellectual property of others without giving them appropriate credit is a serious academic offense. It is the University's policy that cheating or plagiarism result in receiving a failing grade (0 points) for the work or course. Repeat offenses may result in dismissal from the University.

For an excellent review of the topic, browse <u>http://ec.hku.hk/plagiarism/introduction.htm</u>. For a PowerPoint presentation that reviews the topic of cheating and plagiarism (and which reflects my views), browse <u>http://www.personal.kent.edu/~lmarks/ethics/Plagiarism.ppt</u>. NOTE: The questions for the mini tests are copyrighted and unauthorized reproduction is prohibited.

D. Course Withdrawal Deadline: For Fall 2016, the course withdrawal deadline is <u>Sunday</u>, <u>November</u> <u>6, 2016</u>. If you need advising assistance, you will need to contact an advisor before Friday, March 20, as our advising offices are not open on the weekend.

E. Students with disabilities: University policy <u>3 -01.3</u> requires that students with disabilities be provided reasonable accommodations to ensure their equal access to course content. If you have a documented disability and require accommodations, please contact the instructor at the beginning of the semester to make arrangements for necessary classroom adjustments. Please note, you must first verify your eligibility for these through Student Accessibility Services (contact 330-672-3391 or visit <u>http://www.kent.edu/sas</u> for more information on registration procedures).

INTERNATIONAL Students for whom English is a second language, send me an email to request Extended Time. Once I verify your status, I will give you access to the *Extended Time* mini-tests, midterm and final.

#### F. Application for Graduation

It is your responsibility to apply for graduation before the set deadline. If you apply after the deadline you will be assessed a \$200 late fee. Please see your academic advisor as soon as possible if you

are uncertain as to your progress toward graduation. The graduation application deadlines are follows:

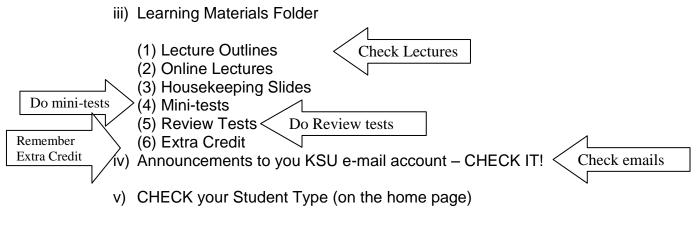

<u>Graduation Application Deadlines:</u> **May Graduation**: Apply before September 15<sup>th</sup> **August Graduation**: Apply before December 15<sup>th</sup> **December Graduation**: Apply before March 15<sup>th</sup>

To apply for graduation complete the following steps:

- 1. Log onto your Flashline account
- 2. Click on the Student Tools tab
- 3. Look in the Graduation Planning Tool Box
- 4. Click on Application for Graduation If an error message appears, you must contact your advisor.
- V) Content Delivery
  - a) This is NOT an "independent learning" class. Lectures are given "live" in \_\_\_\_\_ [room] \_\_\_\_\_ [days/times] AND made available

VII) Grades

Kent State Policy is that midterm grades must be submitted for all 10000 and 20000 courses. For MKTG 25010 midterm grades will be based on the first 5 mini-tests, which are worth approximately 19% of the final course grade.

The Final Course Grade is based on:

- a) \_\_\_\_\_ "mini" exams ( \_\_\_\_\_ % of your final grade), NO mini-tests are dropped, plus
- b) a midterm exam worth \_\_\_\_\_% of your final grade, plus
- c) a final examination worth \_\_\_\_\_ % of your final grade.
- d) PLUS any \_\_\_\_\_

		Letter	grades		
Course Average	Course Grade	Univ. GPA	Course Average	Course Grade	Univ. GPA
92.6+%	А	4.0	76.6-79.5%	C+	2.3

79.6-82.5%	B-	2.7	59.6-66.5%	D	1.0
			59.5 and below	F	0.0

Letter grades

Students who want to become Marketing Majors must earn a "C" (2.0) or better in this course. A "C-" (1.7) does not meet this College of Business requirement.

The class DOES use the plus/minus grading system.

IMPORTANT NOTE: Once the grades are in, students <u>get what they have earned</u>. I do not make adjustments for (a) you really, really needing a better grade, (b) your being "only" .3, .2, or .1 away from the next grade, or for (c) any reason other than

an error in the calculation. Asking, pleading, crying, and/or offering bribes DO NOT WORK (sorry).

#### VIII) Calculating your final grade

It is fairly common for students to incorrectly calculate their final grade. The correct calculation is:

[(Total of all Mini test scores/13) x .5] + (Midterm score x .2) + (Final exam score x .3) + Extra Credit = Final Course Grade

Notes: (1.) A missed mini-test counts as a 0. (2.) Adding your total points up and dividing by 15 is NOT the correct calculation.

For example, suppose you have an average of 85% on the 13 mini-tests, a 70% on the midterm, a 78% on the final exam, and you earned 2.5% in extra credit work.

The grade calculation is:  $(.85 \times .5) + (.70 \times .2) + (.78 \times .3) + 2.5 = .425 + .14 + .234 + .025 = .824$  or 82.4% which would be a "B-" for the course. Needless to say, had you done more extra credit your final course grade would have been higher (for example, adding .5 in extra credit would have earned you an 82.9% or a "B" for the course).

You can download a Grade Calculator Blackboard Learn as a click in the Testing Folder. This is an Excel spreadsheet that will help you calculate how you are doing.

IMPORTANT NOTES about course grades.

- YOU need to watch for deadlines for mini-tests and extra credit assignments. Once an assignment closes, it is very rare for it to be re-opened. If you have a question about an assignment or mini-tests ask about it BEFORE the deadline. This means YOU need to check on your grades and be aware of the deadlines. Once we get to finals week, all mini-tests and extra credit opportunities will have been closed. Do them before their weekly deadlines. DO NOT FORGET TO TAKE THE MINI-TESTS.
- Once the final is taken, your Final Course Grade is calculated using the above formula [(Total of all Mini test scores/13) x .5] + (Midterm exam score x .3) + (Final exam score x .2) + Extra Credit
- 3. THERE ARE NO CHANGES to final course grades made for "being close" to the next higher grade, nor for "only being .1 away" from the next higher grade, nor for "really, really needing" the next higher grade. Students receive the grade that they have earned.

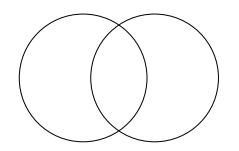

The only possible adjustment to a final course grade occurs when a curve is needed (or if a posting error is made). IF, at the end of finals, there are not a

reasonable number of A's (or, if too many students are failing), it is possible that a curve will be created. In this case, a set number of points will be added to everyone's final course grade. Should this occur, students will be informed via e-mail.

Did I mention that, when it comes to changing the grade which you have earned, asking, pleading, crying, and/or offering bribes DO NOT WORK?

- a) Consumer NEEDS come from \_\_\_\_\_
  - i) These are basic to life and society and include the need for food and shelter, the need to be safe, the need to belong and be loved, etc.
- b) Consumer WANTS are ways to satisfy \_\_\_\_\_\_that are shaped by \_\_\_\_\_\_that are shaped by \_\_\_\_\_\_, \_\_\_\_\_, and personality.

#### VII) What is a Market?

- a) The MARKET is the set of all \_\_\_\_\_ and \_\_\_\_ buyers of a product.
- b) Implications of the definition (MAD)
  - "Something of value to exchange"
  - ii) \_\_\_\_\_
    - "<u>Ability</u> to engage in an exchange"

# Chapter 2: Developing Successful Marketing and Organizational Strategies

#### HP example: Where's HP going?

- I) Strategic Planning
  a) If you don't know where you are going, you will \_\_\_\_\_\_
  - b) By failing to prepare, you are preparing \_\_\_\_\_
- II) Corporate Strategy
  - Corporate strategy is used by \_\_\_\_\_\_, whether profit or non-profit, manufacturer or service, entrepreneurship or a global corporation.

#### III) Marketing Strategy

a) Selecting and analyzing a \_\_\_\_\_ market and

b) Creating and maintaining an appropriate \_\_\_\_\_ mix to

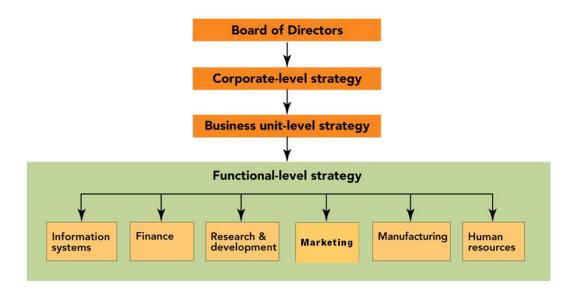

c) Deliver a unique \_\_\_\_\_\_ experience

d) While achieving organizational \_\_\_\_\_\_.

e) Whether you are a profit or a nonprofit organization, you need to have a

\_\_\_\_\_ to set your direction and achieve your goals.

IV) Three levels of Strategy in Organizations

(see text page 29, Figure 2-1, The board of directors oversees the three levels of strategy in organizations: corporate, business unit, and functional)

- V) Organizational Structure
  - a) Corporate
    - i. The "C" level; \_\_\_\_\_, \_\_\_\_, \_\_\_\_,
    - ii. Top management sets and \_\_\_\_\_\_ the overall strategy for the firm
      - How does this work for our entrepreneurs?
        - Tim Apel, AAA Homes
        - Rob Felber, Felber & Felber Marketing
        - o Gary Trinetti, Garick
      - Which of our guest faculty are at the "C" level?
        - Dan Muller, Timken?
  - b) Strategic Business Units (SBU's)
    - i. A division, \_\_\_\_\_, or profit center
    - ii. Selling a distinct set of \_\_\_\_\_

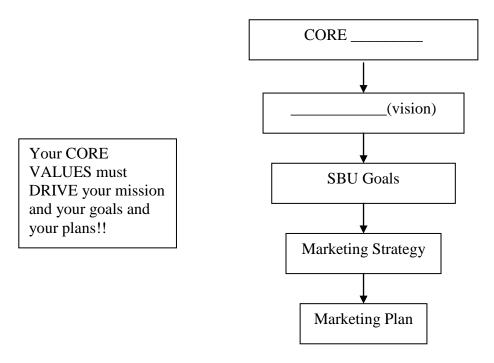

to a specific \_\_\_\_\_

against well-defined \_\_\_\_\_.

- iii. SBU's operate in markets that have \_\_\_\_\_\_ sizes, growth rates, opportunities/threats, competition, and profit potential
- iv. So, planners must be \_\_\_\_\_\_ about these in doing planning, in allocating resources, and in performing evaluations

#### VI) Functional/Department Level

- Strategy can be made at three different level:
- a) The Corporate Level
- b) The Strategic Business Unit level
- c) The functional or department level
  - i. Department input and role:
- VII) Levels of Strategic Market Planning

VIII) Mission Statement

ei co th	The mission statement should be a clear and succinct representation of the enterprise's purpose for existence. It should incorporate criteria addressing concepts such as the moral/ethical position of the enterprise, public image, he target market, products/services, the geographic domain and expectations of growth and profitability.	
	The of the Mission Statement should be the first consideration for any employee who is evaluating a strategic decision.	
c) E	Example – Mission/Vision at Timken

# **Chapter 3: Scanning the Marketing Environment**

- I) Environmental Scanning
  - a) The process of continually acquiring information on events occurring outside the organization to **identify** and **interpret** potential trends.
    - i) Requires \_\_\_\_\_\_ and
    - ii) Intelligent \_\_\_\_\_ and \_\_\_\_\_ of the information
- II) Environmental Factors Affecting the Organization (CREST)

#### **III) Social Forces**

- a) Factors in a society that bring about changes in attitudes, beliefs, norms, customs and lifestyles.
  - i) These affect how people live AND \_\_\_\_\_, \_\_\_\_, and \_\_\_\_\_, they buy.
- IV) Demographics (a social force)
  - a) A population's characteristics such as age, gender, ethnicity, income, and occupation.
    - i) World POPClock <u>http://www.census.gov/population/popclockworld.html</u>
    - ii) Poodwaddle <u>http://www.poodwaddle.com/Stats/ Population2</u>
  - b) Generational Cohorts (from the text)
    - i) Baby Boomers: 1946-1964

- ii) Generation X: 1965-1976
- iii) Generation Y: 1977-1994
- iv) Millennials: 1995+
- c) Generational Cohorts (more broadly than the textbook)

    - a) Subset: The Depression Cohort 1912 1921
    - b) Subset: The World War II Cohort 1922 1927
    - c) Subset: The Post-War Cohort 1928 1945
  - ii) Baby Boomers: 1946 1964
    - a) Leading-Edge 1946 to 1955
    - b) Trailing-Edge 1956 to 1964
  - iii) Generation X: 1965 1980
  - iv) Generation Y (Millennial Generation): 1981–1995 (or 2000)
  - v) Generation Z: 1996 (or 2000) 2010
    - iGen, Gen Tech, Digital Natives, Net Gen
  - vi) Generation Alpha? (since 2010)
- d) Generational Marketing -- These cohort represent potential

\_\_\_\_\_ with differing needs, wants, desires, values,

etc.

 Greatest Generation - Depression Cohort/G.I. Generation - Born 1912 – 1921and age 95+ in 2016. This group's coming-of-age experience consisted of economic strife, elevated unemployment rates and having to take menial jobs to survive.

rules their thinking.

Not a key target audience now, but their \_\_\_\_\_ have influenced marketing.

ii) Greatest Generation - Silent Generation or World War II Cohort - Born 1922 - 1927 and age 89-94 in 2016.

This cohort was focused on defeating a common enemy, and their members are more team-oriented and \_\_\_\_\_\_ than those of other generational cohorts.

In terms of communication, this cohort prefers \_\_\_\_\_ media for information.

iii) Post-War Cohort - Born 1928 – 1945 and aged 71-88 in 2016. A time of remarkable economic growth and social tranquility.

**EXAMPLE - The Vermont Country Store:** 

iv) Leading-Edge Baby-Boomer Cohort - Born 1946 to 1955 and age 61-70 in 2016. They are very aware of their cohort grouping, and they are very self-assured and \_\_\_\_\_. They hate being considered \_\_\_\_\_.

Appeal to them with references to being \_\_\_\_\_\_, the opportunities of retirement and beyond, and their seniority. Video Example:

A company that is success with Baby Boomers is

v) Trailing-Edge Baby Boomer Cohort - Born 1956 to 1964 and age 52-60 in 2016. This group witnessed the fall of Vietnam, Watergate, and Nixon's resignation.

These individuals are far less \_\_\_\_\_\_ about their financial future than Leading-Edge Boomers. Baby Boomer Cohort as Grandparents:

vi) Generation X Cohort - Born 1965 – 1980 and age 36-51 in 2016. These are the latchkey children of the '80s.

These are the latchkey children of the '80s, and have received the most \_\_\_\_\_\_ publicity. Perhaps because many have seen first-hand the trauma of divorce, this cohort has delayed marriage and children, and they don't take those commitments lightly. This group shows a spirit of

They accept \_\_\_\_\_\_ and put quality of personal life ahead of work life.

Reaching Gen-Xers is complicated:

Their experiences have made them into independent, resourceful, and family-oriented adults. VIDEO EXAMPLE:

vii) The Millennial Generation Cohort - Born 1981 to 1995 (or 2000) – Aged 21-35 in 2016. They are also known as "Gen Y."

In 2015, the "Millennial" generation became the nation's

By 2020, projections are that millennial spending in the United States will grow to \_\_\_\_\_\_ trillion annually and represent \_\_\_\_\_\_ of total retail sales. --Trusts \_\_\_\_\_\_ more than customary marketing. --Make \_\_\_\_\_\_ a large feature of your service or product page. --Encourage your customers to submit user-generated content through contests or discounts. --They value \_\_\_\_\_\_ over possessions. EXAMPLES:

WEB STAR PewDiePie, YouTube	Lele Pons, Vine
STYLE INFLUENCER Olsen twins	Tavi Gevinson
<b>CLOTHES</b> American Apparel	Shop Jeen
FIRST GADGET iPod	iPhone

viii) Generation Z - Born 1995 (or 2000) – 2010 and age 7 to 21 (ish) in 2016.
Generally thought to be \_\_\_\_\_\_.
Most of Gen Z prefers a \_\_\_\_\_\_. and "LCD Screen" life-style.
Generation Z calls their own shots--they refuse to be

They are \_\_\_\_\_\_\_\_their own experiences from fashion to entertainment to communication. Their role models are young, everyday characters like The Hunger Games' Katniss Everdeen, who face seemingly inescapable scenarios but rise above them to \_\_\_\_\_\_\_. To appeal to Gen Z, Taco Bell has "leaned in to emerging platforms, including \_\_\_\_\_\_\_; built campaigns around cultural moments, such as "\_\_\_\_\_\_\_"; and continued to embrace food mashups.

ix) PLUS the newest cohort – Generation Alpha - Born 2010 through today and age newborn to 6 in 2016.

Promises to be the most highly \_\_\_\_\_,

\_\_\_\_\_ and technologically proficient generation to live so far.

They are expected to be socially and ecologically

For now, \_\_\_\_\_\_. will be making most of their buying decisions and their \_\_\_\_\_\_ will be the parent calling the spending shots

To Reach Generation Alpha Parents:

Be \_\_\_\_\_\_ and personalize products. Embrace and promote

Don't ignore the \_\_\_\_\_.

#### V) Social Forces

#### VI) Economic Forces

- a) Economy
  - i) The factors relating to \_\_\_\_\_\_, expenditures, and resources that affect the \_\_\_\_\_\_of running a business and a household
- b) Macroeconomic Conditions
- c) Consumer Income
  - i) Gross Income (amount earned in a year)
  - ii) Disposable Income (after taxes)
  - iii) Discretionary Income (after necessities)
  - iv) Marketing use of the data...ESRI Communities http://www.esri.com/data/esri\_data
- d) Audio Example ECONOMIC FORCES: Auto Industry and economic forces
  - 1. January 5, 2016 "Report Card" for auto industry; \_\_\_\_\_\_ straight year of growth
  - 2. Final sales for 2015 expected to exceed \_\_\_\_\_
  - 3. Cheap \_\_\_\_\_\_ boosted sales of trucks, SUVs and luxury vehicles.
  - 4. Before the recession, car companies were addicted to the sales of big trucks and SUVs. When gas prices skyrocketed, they were slow to react and almost lost it all!
  - 5. Today, with low gas prices, consumers are buying SUVs. Jeep was a big winner with sales up 40%. Hybrid and alternative vehicle sales took a hit.
  - 6. The industry has learned a very basic economic lesson: Adjust production for \_\_\_\_\_\_ (DUH!).

7. Auto sales depend on (a) gas prices, (b) improved unemployment rate,(c) improved consumer confidence, (d) low interest rates, and (e) credit.

Understanding CREST factors is IMPORTANT!

- c) We learn if it affects our \_\_\_\_\_\_ it affects us...so we need to find
  - ways to \_\_\_\_\_
- d) And we need foresight for the next change to \_\_\_\_\_\_ the change.
- VII) Technological Forces
  - a) Technology's Impact on Customer Choices and Their Views of "Value"
    - i) Reduced costs = customers focus on other attributes
    - ii) Introduction of new products
    - iii) Changes to production (e.g. increased use of recycling)
  - b) Time Warner Consistent Leader in Innovation
  - c) Electronic Business Technology
  - i) Marketspace an information and communication based electronic exchange environment, where physical boundaries no longer interfere with buy/sell decisions.

In a marketspace, information and/or physical goods are exchanged, and transactions take place through computers and networks

- ii) Electronic Commerce
- iii) Intranet
- iv) Extranets

Video Example: An expert manager's reaction to the impact of technological changes on a traditional business

- 1. How have \_\_\_\_\_
- 2. Recognize the fact then
- 3. \_\_\_\_\_????
- 4. Teaching Point:

This is \_\_\_\_\_\_ what some \_\_\_\_\_\_ DO!

#### VIII) Competitive Forces

a) Competition

Other firms/organizations/people that want to take your customers/clients from you by providing better need satisfaction than you do, can, or care to.

NOTE: Your success will come from finding a better way to \_\_\_\_\_\_ (i.e., from a "competitive advantage"). NOT from your "need" to \_\_\_\_\_\_ (which is the wrong focus)

- b) Alternative Forms of Competition
  - i) Pure Competition
    - (1) Large number of sellers
    - (2) Similar Products

(3) Distribution is very important Example:

ii) Monopolistic Competition: many competitors in the market and no one firm has significant control over the market price. Each company produces a similar product but differentiation is possible.

(1) Large number of sellers

(2) Products are unique, but substitution can occur

(3) Pricing is important

Examples include \_\_\_\_\_, \_\_\_\_, shampoos, toilet paper.

- iii) Oligopoly: market is dominated by a small number of sellers.
  - (1) A few large competitors
  - (2) Products are relatively similar

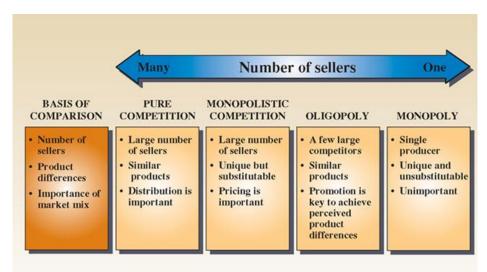

(3) Promotion is the key to demonstrate product differences Examples:

iv) Pure Monopoly

(1) A single producer

(2) A unique and unsubstitutable product

(3) The marketing mix is not an important factor Examples:

Graphic: A continuum of competition

- c) Types of Competition
  - Consumers have \_\_\_\_\_
  - Companies compete for these \_\_\_\_\_\_
  - At the Brand level -- Brand Competition Selling the same type of product that you do (e.g., Colgate or Crest?)
  - ii) At the Product level -- Substitute Product Competition Offers consumers a choice of how to spend their dollars within a broad product category (examples):
  - iii) At the Company level (examples):
  - iv) HOW does a firm successfully compete?(1) YOUR goal is to find a \_\_\_\_\_\_

"If you went out of business, would anyone \_\_\_\_\_\_ you?"

- (2) Having gained it, you must
- d) Response to Competitive Trend

Audio Example -- Italy "allows" wine in boxes!! What changed their minds?

- (1) Realization that they would NOT be able to \_\_\_\_\_\_ in a global market without \_\_\_\_\_\_ some traditional restrictions.
- (2) Boxed wine is the \_\_\_\_\_
- (3) NOT for the \_\_\_\_\_
- (4) Northern Europe is \_\_\_\_\_\_ of the market!
- (5) In the U.S. \_\_\_\_\_ to \_\_\_\_\_of market.
- (6) It is \_\_\_\_\_\_ to produce
- IX) Political and Legal Forces (see the textbook)
  - a) Monetary and Fiscal Policies
    - e.g., Government Spending
  - b) Social Legislation and Regulation
    - e.g., Antipollution Laws
  - c) To Regulate Competition
    - e.g., Rules on monopolies and restraint of trade
  - d) To Protect Consumer
    - e.g., Regulation of Food and Drug Labels

# Chapter 4: Ethical and Social Responsibility in Marketing

- I) Ethics
  - a) The \_\_\_\_\_\_ and \_\_\_\_\_ that guide the actions and decisions of an individual or a group
- II) Business Ethics
  - a) involves what is right and wrong in the workplace...and doing right.
    - Unethical business behavior can get you investigated, fired or \_\_\_\_\_!

#### III) Business Ethics: WHO NEEDS IT?

- a) "NO ONE" Because:
  - i) It's religion, not business.
  - ii) Our people ARE ethical.
  - iii) It's for philosophers.
  - iv) It's Obvious--"Do Good"
  - v) It's preaching
  - vi) It's just a recent fad.
  - vii) Ethics can't be managed.
  - viii)It's the same as "social responsibility."
  - ix) If a firm is not in legal trouble, it's ethical.
  - x) Managing ethics has little practical relevance.
- b) Well, maybe....BUT
  - i) Nestle's -- Infant formula
  - ii) Beech-Nut -- watered apple juice
  - iii) Manville -- asbestos & employees
  - iv) E.F. Hutton -- kiting scheme
  - v) Union Carbide -- Bhopal, India
  - vi) Enron Conflicts of Interest
  - vii) Worldcom/MCI Inflated Accounting Reports
  - viii) Martha Steward Insider Trading
  - ix) Bernie Madoff -- First Jail, Then Bankruptcy for Madoff
  - x) Nike Questionable Hiring Practices
    - (1) The Background
      - (a) Nike has been heavily criticized for NOT being
      - (b) Accusation: use of sweatshops and child labor overseas, and
      - (c) Accusation: targeting \_\_\_\_\_\_ by making shoes an expensive status symbol for poor urban street kids.

- (2) Nike's Corrective Behavior
  - (a) \_\_\_\_\_\_ and six-point plan ensures more socially responsible labor practices & commissioned an independent study of Nike factories abroad.
  - (b) Created a huge \_\_\_\_\_\_ department and publishes a Corporate Responsibility Report.
  - (c) The Nike Foundation works to unleash the unique potential of adolescent girls to end poverty for themselves and for the world.
- IV) Figure 4-1 (text page 93) Four ways to classify marketing decisions according to ethical and legal relationships
  - a) Unethical AND Illegal DUH!
  - b) Ethical AND Legal Okay to consider
  - c) Ethical but Illegal?
  - d) Unethical but Legal?

- V) Criticism of Marketing
  - a) High prices
  - b) Deceptive practices
  - c) High-pressure selling
  - d) Shoddy, harmful, or unsafe products
  - e) Planned obsolescence
  - f) Poor service to disadvantaged consumers
  - g) WHEN THESE OCCUR, they have impact on
    - i)
    - ii)
    - iii) other businesses

#### **VI) High Prices**

- a) Causes:
  - i) High costs of \_\_\_\_\_ and \_\_\_\_\_
    - Consumers want convenience, they want lots of assortment, they want easy return privileges, etc.
  - ii) High \_\_\_\_\_ and \_\_\_\_ Costs

# • Generic vs. Branded? Why such a difference between generic and branded product prices?

Cancer Research Example:

- b) SO, markups that result in high prices often reflect services that customers WANT and are willing to pay for:
  - i) Convenience
  - ii) Image
  - iii) Safety
  - iv) Service
  - v) Return privileges, warranties
- VII) Deceptive Practices
  - a) Deceptive Pricing

i)

b) Deceptive Promotions

i)

c) Deceptive Packaging

i)

- d) Deceptive Practices lead to:i) Legislation
- e) Is Puffery Deception?

Puffery as a legal term refers to promotional statements and claims that express subjective rather than objective views, such that no \_\_\_\_\_\_ would take them literally.

- f) Harm Business / Buyer Beware
- VIII) High-Pressure Selling
  - a) Some people are trained to deliver
    - i) High-pressure selling persuades people to buy goods they had -

\_\_\_\_\_ of buying

- ii) High-pressure selling can occur because of prizes going to top sellers.
- b) It DOES happen...
- c) BUT, it is not "standard business practice"
  - i) High-pressure selling is \_\_\_\_\_\_long-term relationships.

#### IX) Unsafe Products

- a) Products that are not made well or services that are not performed well.
- b) Products that deliver little benefit or that may be harmful
- c) Unsafe products come from:
  - i) Manufacturer \_\_\_\_\_
  - ii) Increased \_\_\_\_\_\_
  - iii) Poorly trained \_\_\_\_\_
  - iv) Poor quality \_\_\_\_\_, and
  - v) Outright \_\_\_\_\_ people.

#### Examples:

- --Takata Airbag Recall
- -- Wal-Mart Pulling Children's Jewelry With Toxic Metals
- Salmonella problems in the food supply Chipotle sales and revenue plummet!
- d) Consumer Product Safety Commission provides HELP for consumers
   i) Mission

"To protect consumers against unreasonable risk of injury by developing voluntary and mandatory standards, banning dangerous consumer products, issuing recalls of products already on the market, and researching potential hazards associated with consumer products."

http://www.cpsc.gov/

#### e) Video: Apel on Safe/Quality Products

- i) Fix \_\_\_\_\_ and fix them right
- ii) Get products that provide the little features that consumers WON'T notice at first, but that they \_\_\_\_\_\_ later
   iii) The result is a \_\_\_\_\_\_ who will be happy

and who will come back and refer others!

#### X) Planned Obsolescence

- a) Products needing replacement before they should because they are obsolete
- b) Producers who influence consumer concepts of \_\_\_\_\_
- c) Intentionally holding back attractive functional features, then introducing them later to make old model obsolete.
- d) The case of the Apple iPhone
- e) Legislation
  - i) In 2015 legislation was passed in France that requires companies to outline the \_\_\_\_\_\_ of a product to consumers.

- XI) Poor Service to Disadvantaged Consumers
  - a) Poor are forced to shop in smaller stores where they \_\_\_\_\_\_ for \_\_\_\_\_goods.
  - b) "Redlining" by national chain stores occurs in disadvantaged neighborhoods.
    - i) Redlining charges have also been leveled against insurers, banking, health care providers and others.
  - c) Poor are targeted for "rapid refunds."
- XII) Cultural Pollution
  - a) Mass communication media is \_\_\_\_\_\_ and reaches outside target segment.
  - b) But, \_\_\_\_\_\_ keeps the cost of radio and television free and magazines/newspaper down, and
  - c) Consumers can opt for technologies or media that reduce or eliminate ads
- XIII) Questionable Judgments in Advertising
  - a) Example: Provocative ads for Clearasil upset parents.
  - b) Are such ads:
    - i) Over the top?
    - ii) Unethical?
    - iii) Humorous? Funny?
  - c) Should they be:
    - i) \_\_\_\_?
    - iii) Or should \_\_\_\_\_\_ be the main influence?
  - d) Clearasil's Response

Our objective is to inform and entertain, not to \_\_\_\_\_. We have found that Clearasil consumers see this ad as we intended: a humorous and unrealistic presentation of an awkward family event.

- e) ...#MyCalvins example:
  - i) There are over 179,000 photos on tagged
  - #MyCalvins.ii) These \_\_\_\_\_\_, authentic posts endorsing the brand are an extremely powerful way to interact with young people.
  - iii) and...I in #MyCalvins
  - --Not everyone is happy [video]:

Which is \_\_\_\_\_\_. If consumers don't agree, they should \_\_\_\_\_\_ the brands products.

iv)and...I \_\_\_\_\_ in #MyCalvins --More Controversy

v) Why do it? Because It \_\_\_\_\_:

The #MyCalvins campaign has led to significant growth on Calvin Klein's

It has reached a global audience surpassing \_\_\_\_\_\_ million fans

- f) PepsiCo Recycling -- Socially Responsible Marketing
  - i) Dream Machines
    - (1) PepsiCo: goal of increasing the U.S. beverage container recycling rate to \_\_\_\_\_%
    - (2) Dream Machines are \_\_\_\_\_\_ kiosks providing and easy, convenient and \_\_\_\_\_\_ way to recycle bottles and cans on the go.
    - (3) Users receive \_\_\_\_\_
- XIV) Management's Response to the need to be ethical
  - a) Corporate Culture
    - i) Aveda example: <u>http://www.aveda.com/discover/index.tmpl#section=mission</u>
       Our mission at Aveda is to care for the world we live in, from the products we make to the ways in which we give back to society. at aveda, we strive to set an example for environmental leadership and responsibility, not just in the world of beauty, but around the world.
  - b) Codes of Ethics
  - c) Behavior of Top Management
    - i) Ombudsman for Ethics
  - d) MANAGING the ethical environment of your firm and its employees!
  - e) Video: Kosec Ethics begins at the top!
    - i) If you are not ethical then I can't \_\_\_\_\_ or \_\_\_\_\_ you!
    - ii) We want \_\_\_\_\_\_ in our marketing
    - iii) MCI \_\_\_\_\_\_ as a result of unethical practices

- iv) Sarbanse-Oxley
- v) Ethics starts at the \_\_\_\_\_

#### f) Video: Hunt on Ethics – It all starts at the top

- i) Based on my experience it all \_\_\_\_\_
- ii) At Sherwin-Williams the \_\_\_\_\_\_ are exemplary and they emphasize this in all areas of the firm
- iii) As a result, it is a \_\_\_\_\_

#### XV) Good ethics IS Good Business

- a) For shareholders
- b) For Employees
- c) For business partners
- d) For Customers/Clients
- e) And for Society!

Patagonia example:

- Patagonia lately has been urging its outdoorsy customers to
   "\_\_\_\_\_" and question whether they really
   need that several-hundred-dollar new parka, even from Patagonia.
- The result? Patagonia's fans and customers are both joining the brand's sustainability cause—and buying more new parkas from Patagonia

#### XVI) AMA Ethics Statement

http://www.marketingpower.com/AboutAMA/Pages/Statement%20of%20Ethics.aspx

http://www.marketingpower.com/AboutAMA/Pages/Statement%20of%20Ethics.aspx

#### PREAMBLE

The American Marketing Association commits itself to promoting the highest standard of professional ethical norms and values for its members

(practitioners, academics and students). Norms are established standards of conduct that are expected and maintained by society and/or professional

organizations. Values represent the collective conception of what communities find desirable, important and morally proper. Values also serve as the criteria for evaluating our own personal actions and the actions of others. As marketers, we recognize that we not only serve our organizations but also act as stewards of society in creating, facilitating and executing the transactions that are part of the greater economy. In this role, marketers are expected to embrace the highest professional ethical norms and the ethical values implied by our responsibility toward multiple stakeholders (e.g., customers, employees, investors, peers, channel members, regulators and the host community).

#### ETHICAL NORMS – As Marketers, we must:

1. **Do no harm.** This means consciously avoiding harmful actions or omissions by embodying high ethical standards and adhering to all applicable

laws and regulations in the choices we make.

2. Foster trust in the marketing system. This means striving for good faith and fair dealing so as to contribute toward the efficacy of the exchange

process as well as avoiding deception in product design, pricing, communication, and delivery of distribution. 3. **Embrace ethical values.** This means building relationships and enhancing consumer confidence in the integrity of marketing by affirming these core values: honesty, responsibility, fairness, respect, transparency and citizenship.

ETHICAL VALUES

Honesty - to be forthright in dealings with customers and stakeholders. To this end, we will:

~Strive to be truthful in all situations and at all times.

~Offer products of value that do what we claim in our communications.

~Stand behind our products if they fail to deliver their claimed benefits.

~Honor our explicit and implicit commitments and promises.

Responsibility - to accept the consequences of our marketing decisions and strategies. To this end, we will:

~Strive to serve the needs of customers.

~Avoid using coercion with all stakeholders.

~Acknowledge the social obligations to stakeholders that come with increased marketing and economic power. ~Recognize our special commitments to vulnerable market segments such as children, seniors, the economically impoverished, market illiterates

and others who may be substantially disadvantaged.

~Consider environmental stewardship in our decision-making.

**Fairness** – to balance justly the needs of the buyer with the interests of the seller. To this end, we will: ~Represent products in a clear way in selling, advertising and other forms of communication; this includes the avoidance of false, misleading and

deceptive promotion.

~Reject manipulations and sales tactics that harm customer trust.

Refuse to engage in price fixing, predatory pricing, price gouging or "bait-and-switch" tactics.

~Avoid knowing participation in conflicts of interest.

Seek to protect the private information of customers, employees and partners.

**Respect** – to acknowledge the basic human dignity of all stakeholders. To this end, we will:

~Value individual differences and avoid stereotyping customers or depicting demographic groups (e.g., gender, race, sexual orientation) in a

negative or dehumanizing way.

~Listen to the needs of customers and make all reasonable efforts to monitor and improve their satisfaction on an ongoing basis.

~Make every effort to understand and respectfully treat buyers, suppliers, intermediaries and distributors from all cultures.

~Acknowledge the contributions of others, such as consultants, employees and coworkers, to marketing endeavors.

~Treat everyone, including our competitors, as we would wish to be treated.

#### Transparency - to create a spirit of openness in marketing operations. To this end, we will:

~Strive to communicate clearly with all constituencies.

~Accept constructive criticism from customers and other stakeholders.

~Explain and take appropriate action regarding significant product or service risks, component substitutions or other foreseeable eventualities that

could affect customers or their perception of the purchase decision.

~Disclose list prices and terms of financing as well as available price deals and adjustments.

**Citizenship** – to fulfill the economic, legal, philanthropic and societal responsibilities that serve stakeholders. To this end, we will:

~Strive to protect the ecological environment in the execution of marketing campaigns.

~Give back to the community through volunteerism and charitable donations.

Contribute to the overall betterment of marketing and its reputation.

~Urge supply chain members to ensure that trade is fair for all participants, including producers in developing countries.

**IMPLEMENTATION** 

We expect AMA members to be courageous and proactive in leading and/or aiding their organizations in the fulfillment of the explicit and implicit promises made to those stakeholders. We recognize that every industry sector and marketing sub-discipline (e.g., marketing research, e-commerce, Internet selling, direct marketing, and advertising) has its own specific ethical issues that require policies and commentary. An array of such codes can be accessed through links on the AMA Web site. Consistent with the principle of subsidiarity (solving issues at the level where the expertise resides), we encourage all such groups to develop and/or refine their industry and discipline-specific codes of ethics to supplement these guiding ethical norms and values.

# **Chapter 5: Understanding Consumer Behavior**

 Video: Michele Skinn, on the importance of understanding consumers' motivations

 a) Learning the motivation is \_\_\_\_\_\_

b) Understand WHY the consumer would want to \_\_\_\_\_

c) or your \_\_\_\_\_

d) Understand their motivation and then market to \_\_\_\_\_\_

i) ii) iii)

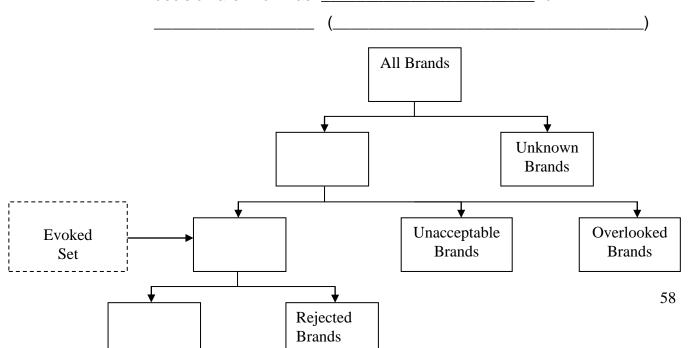

VI) Purchase Decision Process Stages – Alternative Evaluation

a) HOW will the consumer decide \_\_\_\_\_

- b) \_\_\_\_\_are the Factors that represent the brand's characteristics (as perceived by the consumer). They are used to compare the possible brand choices.
- c) Marketers attempt to \_\_\_\_\_

Video Example: Windows vs. iPad commercial

- d) Consumers use their \_\_\_\_\_\_ to compare the alternatives in their CONSIDERATION SET (also called the \_\_\_\_\_\_)
- e) Purchase Decision Process Stages Alternative Evaluation Understanding the CONSIDERATION SET of brands
  - i) Consumers' information search should result in a
  - ii) Brands that consumers actually CONSIDER before making a purchase decision are known as or

VII)	Purchase Decision Process Stages – Alternative Evaluation – Belief,
At	titudes, and Purchase Intention

a) As they evaluate the brand choices, consumers form \_\_\_\_\_\_

about the brands, and \_\_\_\_\_\_ or \_\_\_\_\_ attitudes.

b) The result is an \_\_\_\_\_\_ to make a purchase including

which Brand to buy, where to buy, when to buy, how to pay, etc.

- VIII) Purchase Decision Process Stages Post-Purchase Behavior
  - a) Consumers make the purchase (choice) based on their evaluations and their purchase intentions....and then they
  - b) Consumers' Level of Satisfaction is based on their \_\_\_\_\_ and

their \_\_\_\_\_

- i) If Perceived Performance is BELOW Expectations then consumers are
- ii) If Perceived Performance EQUALS Expectations then consumers are
- iii) If Perceived Performance EXCEEDS Expectations then consumers are

iv) SO, Marketers should promise what \_\_\_\_\_

- v) Some marketers will \_\_\_\_\_
- c) \_\_\_\_\_ is the feeling of anxiety consumers often experience when they must choose between attractive alternatives
  - i) It can occur REGARDLESS of the \_\_\_\_\_

- d) Marketers help MINIMIZE dissonance by:
  - i) Reassuring consumers they made the right choice and minimizing product misuse through \_\_\_\_\_

### EXAMPLE:

- ii) Offering ways for \_\_\_\_\_
- iii) Being RESPONSIVE to \_\_\_\_\_
- IX) Consumers' Decision Making is Influenced by how INVOLVED they are with the decision (the following details are from the **chart** shown in the lecture):
  - a) When consumers' involvement is \_\_\_\_\_, they engaged in Routine decision making.
    - i) Typically, such decisions take a \_\_\_\_\_\_ time to make
    - ii) The cost of the product is usually \_\_\_\_\_
    - iii) Consumers will only search \_\_\_\_\_
    - iv) And they consider \_\_\_\_\_\_ brand or alternative
  - b) When consumers' involvement is MODERATE, they engage in \_\_\_\_\_ decision making.
    - i) Typically, such decisions take a \_\_\_\_\_\_ time to make
    - ii) The cost of the product is usually \_\_\_\_\_
    - iii) Consumers will search mostly \_\_\_\_\_
    - iv) And they consider \_\_\_\_\_ brands or alternatives
  - c) When consumers' involvement is HIGH, they engage in \_\_\_\_\_\_ decision making.
    - i) Typically, such decisions take a \_\_\_\_\_ time to make
    - ii) The cost of the product is usually \_\_\_\_\_
    - iii) Consumers will search \_\_\_\_\_
    - iv) And they consider \_\_\_\_\_ brands or alternatives

#### d) Examples (from the chart):

- X) Psychological Influences on Consumers' Purchase Decisions
  - a) Motivation the energizing force that stimulates behavior to satisfy a need
  - b) Personality-A person's tendency to respond in a consistent way to situations
  - c) Perception- the processes by which people select, organize, and interpret information
  - d) Learning-behaviors resulting from repeated experiences and from reasoning
  - e) Values, Beliefs, and Attitudes
  - f) Lifestyle-A person's "mode of living"
- XI) Psychological Influences Consumer Decision Making Motivation
  - Link to our model of Consumer Behavior
  - a) Maslow's Hierarch of Needs (see Figure 5-5, text page 130)
    - i) Physiological Needs: Food, water, oxygen

Ad Example:

ii) Safety Needs: Freedom from physical harm; financial security

Ad Example:

iii) Social Needs: Friendship, belonging, love

Ad Example:

iv) Personal Needs: Status, respect, prestige

Ad Example:

v) Self-actualization needs: Self-fulfillment

Ad Example:

- XII) Psychological Influences Consumer Decision Making Personality
  - a) Personality is a person's \_\_\_\_\_\_ that influence their behaviors
    - i) If a person is confident, dependent, fearful, or sexual in their everyday life, these same traits likely will influence them in their style of

- XIII) Psychological Influences Consumer Decision Making Perception
  - a) \_\_\_\_\_ is the process of receiving, organizing, and giving meaning to stimuli detected by one of our five senses.
  - b) However, not everyone gets the same meaning from the same stimuli due, in part, to:
    - i) Selective Perception
    - ii) Selective Exposure
    - iii) Selective Comprehension
    - iv) Selective Retention
    - v) Subliminal Perception???
  - c) Selective Perception
    - i) Is the process which we use to determine "\_\_\_\_\_" to perceive.
    - ii) Due to this selective process, we may omit items, add, or even change what we see, feel, or hear.
    - iii) Selective perception doesn't happen all at once but occurs in various stages including exposure, comprehension, and retention
  - Male vs. Female Differences in Perception video example:
  - d) Selective Exposure
    - i) From the variety of communication available to them, people
    - ii) They tend to view communication (e.g., ads) that reaffirm preexisting ideas and attitudes, thereby bolstering their image of themselves and what they "know".
    - iii) Marketers need to find ways to "\_\_\_\_\_" barriers to perception!
    - Example:
    - iv) People rarely read Web pages, instead they \_\_\_\_\_
  - e) Selective Comprehension
    - i) This involves interpreting discrepant information so that it is \_\_\_\_\_\_ with beliefs and attitudes.

 It was once reported in a study that \_\_\_\_\_\_ of nonsmokers believed the link between smoking and lung cancer was proven;

(2) yet only \_\_\_\_\_\_ of heavy smokers accepted the link!!

- Example
- f) Selective Retention
  - i) People remember more accurately messages that are favorable to their \_\_\_\_\_\_ than messages that are unfavorable.
  - ii) People remember the good things and forget the bad. Selective retention thus reinforces one's \_\_\_\_\_.
  - iii) Marketers need to find ways to help consumers to \_\_\_\_\_\_ their message.
- g) Subliminal Perception???
- h) SO, consumers perceive marketing stimuli \_\_\_\_\_because each individual is unique in the combination of his or her needs, attitudes, experiences, and personal characteristics.
  - i) AND, identical advertisements, packages, or products may be perceived
     \_\_\_\_\_\_ by consumers
- XIV) Psychological Influences Consumer Decision Making Perceived Risk
  - a) Perceived risk involves the perceptions of the riskiness of the purchase. There are several types that marketers must understand, including:
    - i) \_\_\_\_\_ Risk
    - ii) \_\_\_\_\_ Risk
    - iii) \_\_\_\_\_ Risk
    - iv) \_\_\_\_\_ Risk
  - b) Marketers must understand their consumers' perceptions of risk and address them
  - Video Example Reducing Financial Risk

- XV) Psychological Influences Consumer Decision Making Learning
  - a) Learning involves changes in behavior resulting from observation and experience.

	i)Conditioning			
	and his			
	ii) Conditioning			
	and his			
	iii) Learning			
	iv) Learning			
b)	<ul> <li>Brand Loyalty</li> <li>i) Consumers can to a brand over all othersthis is rather important to marketers!</li> </ul>			
XVI)	Psychological Influences Consumer Decision Making – Attitudes and Beliefs			
a)	Based on what they have learned from processing information, evaluating alternatives, making a choice, and evaluating the choice consumers			
b)	form about the stores, products, decision processes, and			
c)	form attitudes ( ) about these			
d)	When attitudes are POSITIVE they			
e)	When attitudes don't exist (e.g., for a new or for an unknown brand) or when they are NEGATIVE they			
f)	Marketers attempt to Change Unfavorable Attitudes (using) by:			

- i) Changing Beliefs About a Brand's \_\_\_\_\_
- ii) Changing the Consumer's Perception of the Importance of the Brand's
- iii) Adding New Product \_\_\_\_\_
- Examples:

XVII) Psychological Influences Consumer Decision Making – Lifestyles

- a) \_\_\_\_\_\_ -- Individual patterns of living as reflected by interests, opinions, spending habits, and activities.

  - i) Personal Influence
  - ii) Reference Groups
  - iii) Family
  - iv) Social Class
  - v) Subculture
  - vi) Culture
- b) Personal Influence

- i) Product Trial, Brand Evaluation, Purchase Decisions, and Satisfaction can be influenced by the attitudes of "others."
  - (1) Opinion Leaders
  - (2) Word of Mouth
    - (a) Buzz

# OLD: Broadcast TV, radio, out-of-door Direct mail, brochure Product test, comparison In-store purchase Reward points

- The IMPACT of WOM "buzz" -- Philips Sonicare Essence Example:
- i) Sent a \$70 Sonicare Essence toothbrush to \_\_\_\_\_
- ii) The 30,000 agents each told \_\_\_\_\_
- iii) THOSE \_\_\_\_\_\_ people told an average of \_\_\_\_\_\_ more people, for a total of \_\_\_\_\_\_ people
- iv) Representing a \_\_\_\_\_
- Example: You Lookin' at Me?

- c) Family Influence
  - i) Consumer Socialization
    - (1) The process by which people acquire the skills, knowledge, and attitudes necessary to function as consumers
    - (2) The \_\_\_\_\_ is a key factor in consumer socialization of children
      - (a) Marketers are aware of this and create commercials to target this family influence
      - Ad Example:
  - ii) Family Decision Making
    - (1) Family can BE \_\_\_\_\_
    - (2) Often involves \_\_\_\_\_ and \_\_\_\_\_

- d) Social Class
  - (1) Social Class
  - (2) Upper Class
  - (3) Middle Class
  - (4) Worker/Lower Class
  - i) A very strong influence on \_\_\_\_\_\_, attitudes, activities, social interactions, AND your consumer behavior (e.g., where you shop, what you buy, how you save/invest)
- e) Subculture -- the subgroups within the larger, or national, culture with unique values, ideas, and attitudes
  - i) Hispanic
  - ii) African American
  - iii) Asian American
  - iv) And more
- f) Culture
- Video example: American vs. Others--"Similar language, but what does that MEAN?"
- XIX) Other influences on Consumers' Purchase Decisions
  - a) Situational Influences = five aspects of the purchase situation that impacts the consumer:
    - i) Purchase task

- ii) Social Surroundings
- iii) Physical Surroundings
- iv) Time (temporal) Effects
- v) Antecedent (pre-existing) States

#### XX) IN CONCLUSION

Understanding what influences consumers to buy or not buy your product is

- a) EXTREMELY \_\_\_\_\_, and
- b) EXTREMELY \_\_\_\_\_!

# **Chapter 6: Understanding Organizations as Customers**

- I) The Nature and Size of Organizational Markets
  - a) \_\_\_\_\_\_ involves the marketing of goods and services to companies, governments, or not-for-profit organizations for use in the creation of goods and services that they can produce and market to others.
  - b) Business Markets include \_\_\_\_\_\_ that buy goods and services to:
    - i) Make \_\_\_\_\_ goods and services (e.g., \_\_\_\_\_)

- c) Government markets Total Number = 89,527
- --and Timken's focus...
- III) Measuring Domestic And Global Industrial, Reseller, And Government Markets

North American Industry Classification System (NAICS) -- The North American Industry Classification System (NAICS) is the standard used by Federal statistical agencies in classifying business establishments for the purpose of collecting, analyzing, and publishing statistical data related to the U.S. business economy.

http://www.census.gov/eos/www/naics/

#### a) North American Product Classification System (NAPCS)

A joint multi-phase initiative to develop a comprehensive demand-oriented product classification from the statistical agencies of Canada, Mexico, and the United States. Work to date has focused on the products produced by service industries in 12 NAICS sectors 48-49 through 81. With that work nearing completion, this web page provides an overview of and progress report on the NAPCS initiative and presents the final versions of the product lists developed so far for the service industries included in those 12 sectors.

http://www.census.gov/eos/www/napcs/index.html

#### IV) Characteristics Of Organizational Buying

- a) Demand Characteristics
  - i) Derived Demand -- the demand for industrial products and services is driven by, or "derived from," demand for consumer products and services.

Example:

#### (1) The Implications of Derived Demand:

(a) Business Marketers must understand

(b) Often they need to find ways to \_\_\_\_\_

Intel Examples:

- ii) Elasticity of Demand [recall your Microecon course!]
  - (1) \_\_\_\_\_\_ The total demand for all of the producers of the product responds very little to changes in its prices. Demand does not change much if price changes.
    - (a) Occurs when Cost is a small percent of the finished product, and
    - (b) When there are no close substitutes

Example

- (2) Demand is more elastic when:
  - (a) A Price Change occurs in a \_\_\_\_\_
  - (b) When demand is viewed from a \_\_\_\_\_
  - (c) If the cost of the business product is a SIGNIFICANT portion of the cost of the finished good
- b) Size of the Order or Purchase and the Number of Buying Units
  - i) Number of Business users =
  - ii) Number of Ultimate Consumers =
  - iii) However, while there are a smaller number of organizations they are
  - iv) Plus, they are \_\_\_\_\_

## c) Organizational Buying Objectives

- i) Businesses buy from other businesses to help them achieve their objectives, such as:
  - (1) Reduce \_\_\_\_\_
  - (2) Increase \_\_\_\_\_
  - (3) \_\_\_\_\_

# d) Organizational Buying Criteria (like Consumer's Evaluative Criteria)

- i) In deciding among suppliers, buyers must consider a variety of factors, such as:
  - (1) Price
  - (2) Delivery Schedules
  - (3) Past Performance
  - (4) Production Facilities/Capacity
  - (5) Warranty/Claim Policies
  - (6) Technical Capability
  - (7) Quality Specifications

- (a) ISO 9000 standards for registration and certification of a manufacturer's quality management and assurance system based on an on-site audit of practices and procedures developed by the International Standards Organization (ISO).
- ii) Why is all of this SO important in B2B Buying?
  - (1) Firms MUST buy the \_\_\_\_\_, at the \_\_\_\_\_, and

at the \_\_\_\_\_, because:

- (a) Companies are making less and buying more from suppliers
- (b) Firms cannot tolerate \_\_\_\_\_
- (c) SO, firms need to work with fewer suppliers and develop long term relationships with them
  - (i) Work together to develop new products, share information on inventories, production and costs.
- e) Buyer-Seller Relationships and Supply Partnerships
  - Supplier development is the deliberate effort by organizational buyers to build relationships that shape suppliers' products, services, and capabilities to fit a buyer's needs and those of its customers.
    - (1)
    - (2)
- f) The \_\_\_\_\_\_ -- consists of a group of people in an organization who participate in the buying process and share common goals, risks, and knowledge important to a purchase decision.
  - i) It is a "Cross-Functional" Group
  - ii) People in the Buying Center
  - iii) Roles in the Buying Center
    - (1) Gatekeepers --
    - (2) Influencers --
    - (3) Users --
    - (4) Buyers --
    - (5) Deciders --
- g) Buy Classes represent the "type" of buying situation (see Text Figure 6-3):
  - i) \_\_\_\_\_ Rebuy

- ii) \_\_\_\_\_ Rebuy
- iii) \_\_\_\_\_ Buy
- iv) See Figure 6-4, text page 164, for the ways in which the buying situation affects the buying center

- v) Stages in the Organizational Purchase Decision Process (See Figure 6-3, text page 162),
  - (1) Problem Recognition
  - (2) Information Search
  - (3) Alternative Evaluation
  - (4) Purchase Decision
  - (5) Postpurchase Behavior
- vi) The Hershey's Example:
  - (1) Problem Recognition
  - (2) Information Search
  - (3) Evaluation of Alternatives
  - (4) Purchase Decision
  - (5) Post-purchase evaluation

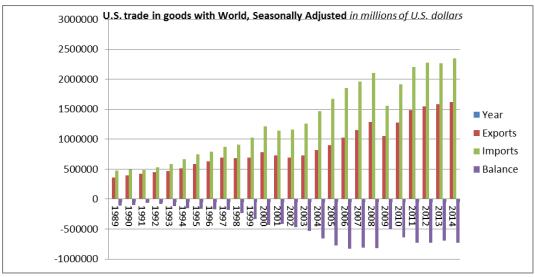

#### V) ONLINE BUYING IN ORGANIZATIONAL MARKETS

- i) Prominence of Online Buying in Organizational Markets
- ii) E-marketplaces
  - (1) Online Auctions in Organizational Markets
  - a) Traditional Auctions
  - A Seller puts an item up for sale
  - Various Buyers \_\_\_\_\_.
  - As bidders increase, there is \_\_\_\_\_ on price.
  - The Auction ends when \_\_\_\_\_
  - b) Reverse Auction

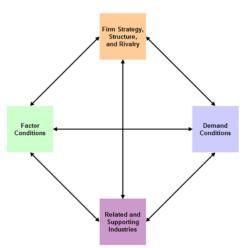

- A Buyer communicates a need for a product or service
- Various \_\_\_\_\_ bid in competition
- As the number of suppliers increase there is \_\_\_\_\_\_\_
   on price
- The Auction ends when \_\_\_\_\_\_

- III. Marketing In A Borderless Economic World
  - A. Trend 1—Decline of Economic Protectionism
    - i. Recently we had an \_\_\_\_\_
    - ii. Should Congress create more Protectionism?
      - 1. Some argue that the benefits of today's free trade systems go unfairly and primarily to low-wage countries, which take jobs away from Americans.
      - 2. These arguments are not supported by the facts.
  - iii. Reagan said:
    - "A creative, competitive America is the answer to a changing world, not trade wars that would close doors, create greater barriers, and destroy millions of jobs. We should always remember: Protectionism is destructionism."

    - iv. America's economy, over the past few decades, has proved that \_\_\_\_\_\_\_ flexibility makes the economic pie

much bigger and that the benefits can be widely shared.

- v. Over the past 10 years, open trade has boosted job growth by more than 13 percent and has helped to raise U.S. GDP by nearly

IV. A Global Environmental Scan – What do we need to "know before we go?"

A. Cultural Diversity

- i. Social and Cultural Environment
  - 1. Family

- 2. Customs and Behavior
- 3. Education
- 4. Language
- 5. Impediments to understanding foreign markets:
  - a. \_\_\_\_\_\_ -- an unconscious reference to one's own values, experiences and knowledge as a basis for making certain decisions
  - i. Can result in a \_\_\_\_\_\_ an open attitude and a cultural sensitivity enabling managers to look carefully at the foreign market and understand the \_\_\_\_\_\_needs there (and not simply transfer the needs of the domestic market)
  - b. Ethnocentrism -- The belief that one's culture is
  - c. Examples
- ii. Economic Environment
  - 1. \_\_\_\_\_\_ can the country provide communications, transportation, energy, etc.?
  - 2. Level of Economic Development
    - a. A general indicator of the market's attractiveness
    - b. Indicator of the types of products that will be in demand
    - c. Gross National Income (GNI) Per Capita

## 3. Competition

- a. The \_\_\_\_\_ is often overlooked
- b. You MUST have a \_\_\_\_\_
- 4. Political Stability -- when the country is not politically stable, business risks losses!

a. Examples:

Worst Performers (Very High Alert): 1 2 3 4 Best Performers (Sustainable): 175 176 177

#### IX. Distribution and Pricing

- A. Channels Usually Long and Complex
- B. Countries May Impose Pricing Constraints

Muller - Understanding Cultural Difference in Pricing

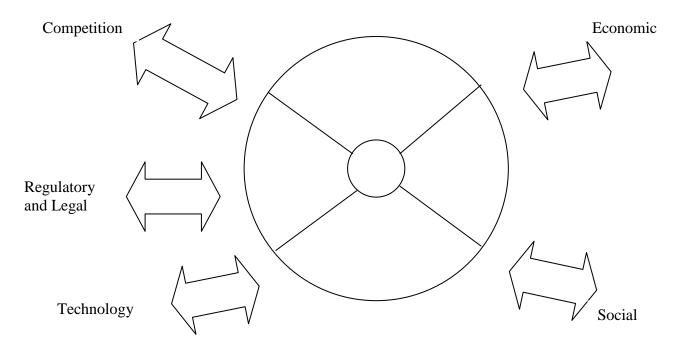

- i. Timken tends to \_\_\_\_\_\_ who understand the culture.
- ii. But, in \_\_\_\_\_ misunderstandings can occur.
- iii. They had \_\_\_\_\_\_ than they could supply.
- iv. So, they felt they need to \_\_\_\_\_(because of

- v. In China, increasing price was seen as "\_\_\_\_\_\_." But, initially, management did not understand this.
- vi. They needed to \_\_\_\_\_\_.

# Chapter 8 -- Marketing Research: From Customer Insights to Actions

- I. The Role of Marketing Research
  - a) Important Factors that Marketers NEED information about (CREST):

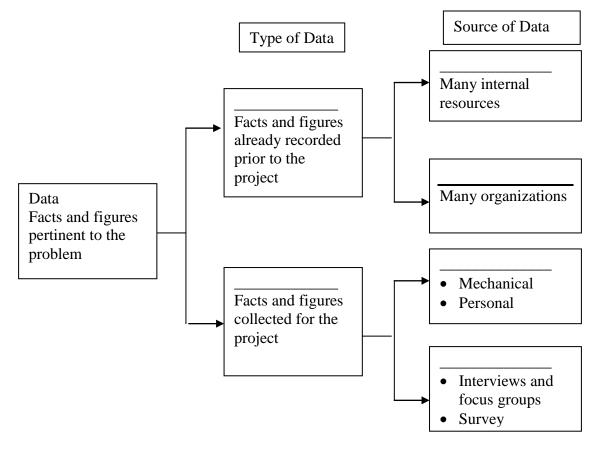

- II. What is Marketing Research?
  - a) It is the process of defining a marketing problem and opportunity, systematically collecting and analyzing information, and recommending actions.
  - b) Implications
    - i) Marketing Research is used for
      - 1. Planning \_\_\_\_\_\_
      - 2. In the Implementation \_\_\_\_\_
      - 3. In their \_\_\_\_\_\_
    - ii) Marketing Researchers are responsible for collecting and interpreting data that supports decision making

- III. Marketing Research/Program Failures
  - a) New Coke
  - b) Crystal Pepsi
  - c) Sony Betamax lost to
  - d) Sega Dreamcast
  - e) Colgate Kitchen Entrees
- IV. The Five-step Marketing Research approach for better Actions
  - a) Step 1: \_\_\_\_\_
    - i) Set Objectives
      - 1. The specific, measureable goals for the research (and for the decision maker)
    - ii) Possible Objectives:
      - 1. To \_\_\_\_\_\_ the issues better (Exploratory Research)
      - 2. To understand the \_\_\_\_\_ better (**Descriptive Research**)
      - 3. To determine how to \_\_\_\_\_\_ an element of interest (Causal Research)
  - b) Step 2: \_\_\_\_\_
    - i) Specify Constraints
      - 1. Financial, Time
    - ii) Identify \_\_\_\_\_ needed for Marketing Actions
      - 1. What do we NEED to know to?
    - iii) Determine \_\_\_\_\_
      - Sampling

         (a) Probability Sampling (i.e., Random Sampling)

- (b) Nonprobability Sampling
- (c) The difference? The ability to make \_\_\_\_\_
- c) Step 3: Collect Relevant Information
  - i) Types of Data
    - 1. Secondary Data
    - 2. Primary Data

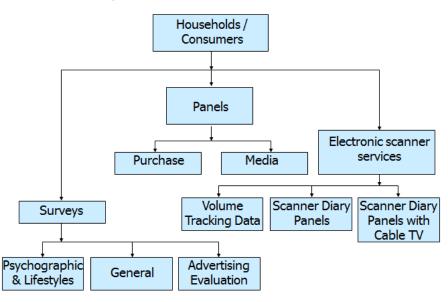

- V. Video: Muller on Marketing Research at Timken
  - I. Timken does Marketing Research "both ways" (using internal marketing managers and outside firms)
  - II. They use research to understand their \_\_\_\_\_ and to find
- III. Outside firms for really big jobs
- IV. e.g. Wind Energy Market
- V. Faster, Global

- VI. Results suggest future role for Timken
- VI. Secondary Data a) Advantages i) \_\_\_\_\_ ii) Inexpensive iii) May provide a "\_\_\_\_\_" solution iv) May point the direction for primary research b) Disadvantages i) \_\_\_\_\_ ii) Sample/Definitions/Categories not appropriate iii) \_\_\_\_\_ VII. **Primary Data** a) Advantages i) Focuses on the specific problem at hand ii) Is under control of the current researchers b) Disadvantages i) \_\_\_\_
  - ii) \_\_\_\_\_
- VIII. Syndicated Services A source of Secondary Data
  - a) Syndicated research is conducted by a market research firm in an area that may be of interest to multiple companies or organizations within a particular industry.
    - i)
  - b) Benefits of Syndicated Research
    - i) Cost efficiency:
    - ii) Overview of the Market

- iii) Identifies Industry Trends:
- iv) Measures Brand Awareness, Strength, and Perceptions:
- v) Offers Competitive Intelligence:
- c) Syndicated sources can be classified based on the unit of measurement
- d) Household/consumer data can be obtained from surveys, diary panels, or electronic scanner services.

or

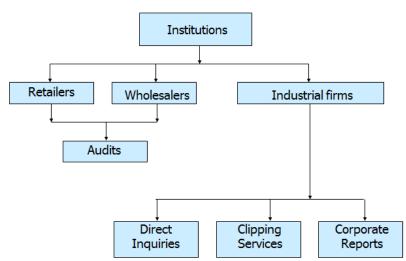

e) Institutional data is obtained from retailers, wholesalers, or industrial firms.

- ii. Data Mining
  - 1. Data warehouses can be analyzed the <u>same way</u> as databases (looking for predetermined patterns).
  - 2. However, due to size, it would be a <u>slow</u> and cumbersome <u>process</u>
  - 3. More <u>advanced statistical and artificial intelligence</u> <u>techniques</u> (called data mining) allow marketers to identify patterns and meaningful relationships!
  - 4. Harrah's Example:

    - i) For example, what do YOU look for in a vacation?
  - b) \_\_\_\_\_ A market segment for which the seller chooses to design a marketing mix
  - c) Market Segmentation The PROCESS of identifying and describing target markets
    - i) Market Segmentation involves \_\_\_\_\_\_ into groups, or segments, that:
      - (1) Have common needs, and
      - (2) Will respond similarly to a marketing action.

- ii) We need to target our market segment by "positioning" our offer; BUT first we need to define and describe the target market in detail.
- III. Market Segmentation (another view)
  - a) The process of dividing the total market for a good or service into several smaller, internally homogenous (i.e., \_\_\_\_\_) groups.
    - i) Members of each group are similar with respect to the factors that influence demand
      - (1) For example 3 types of cars:
        - (a)
        - (b)
        - (C)
  - b) Segmentation Benefits and Challenges
    - i) More efficient use of marketing resources
      - (1) Example
    - ii) Can help to create rapid growth
      - (1) Example
    - iii) Challenges Be Careful
      - (1) Too much complexity can frustrate consumers
        - (a) Example:

#### IV. Process of Market Segmentation

- a) Identify \_\_\_\_\_ within a \_\_\_\_\_
  - i) Market research is used to explore this with CURRENT and POTENTIAL consumers.
  - ii) Cell phone Example -- What do people want in a cell phone?
    - (1) Texting?
    - (2) Web access
    - (3) Gaming Apps
    - (4) Camera (or video?)
    - (5) Music

(6) Fashion	
(7) Simple, low-tech	
(8) "Don't Care"	
(9) Business Users	
(10) For	_!

 b) Identify the Characteristics that define the segment (what do prospective segments share that make them different from other segments with different needs/wants/desires?)

Example: Occupations and boots

- c) Determine the \_\_\_\_\_\_ of the segment and how well they are being \_\_\_\_\_\_ by current offerings
  - i) How large is the segment in terms of numbers, demand, and dollars (i.e., potential sales)?
  - ii) How \_\_\_\_\_\_ is their need (how dissatisfied are they with their current options)?
  - iii) How \_\_\_\_\_\_ is the existing competition?
  - iv) FORECASTS can help to determine which segments are worth pursuing!
  - Note: See the textbook Chapter 8 for "sales forecasting techniques" that may be very valuable here.
- d) This should allow us to determine the size of the segment, the urgency of the need, and the strength of the competition...so, \_\_\_\_\_

\_\_\_\_\_ help determine whether or not this segment seems to be appealing for us

- V. Market Segmentation Conditions that indicate a useful segment
  - a) The segment is Measurable and we can \_\_\_\_\_\_ data about the segment

Example:

b) Is the segment \_\_\_\_\_?

	e.ç	g., The Cleveland Plain Dealer:
c)	ls	to be profitable for us?
	i)	Creating a new product/service, advertising it, distributing it, facing down
		competition is all
	ii)	Is there enough size, demand, and sales to provide the
	,	
		we will need?
	iii)	In some cases, we can be successful by treating EACH customer as a
		separate segment through
Exam	ples	8
	1	
VI. Ma	arke	t Segmentation – Grouping Buyers into Segments
a)	Ba	sed on the Customer's reason for?
	i)	For personal use = Final Consumer
	ii)	To use in the organization,
		to resell, or to make other products
E	Blac	k and Decker and DeWalt Example:
		·
Vie	deo	E Felber on Market Segmentation at Felber & Felber
		Felber & Felber has focused on the segment
		There are many manufacturing companies doing well
	(c)	Felber & Felber only needs a few of these to FOCUS on with their specialties
	(d)	Green Marketing and Early Stage Clients
	(e)	They apply what they learned from other clients to this segment
		ver, while useful, this is too broadso look at Consumer Market enation
b)	Ba	ses for Segmenting Consumer Markets (from the figure):

i) Geographics (Region, Size, Urban-rural, Climate)

- ii) Demographic (Income, age, gender, family life cycle, social class, education, occupation, ethnic background)
- iii) Psychographics (e.g., VALS)
- iv) Behavioral segmentation (Benefits desired, usage rates)
- v) Usage Rate

Exan	npl	es
LAU	ıγı	00.

(1) \_\_\_\_\_ (by Age )

- (2) Psychographic Segmentation
  - (a) As the American population becomes more diverse and affluent, demographic researchers are changing the way they define segments of American society.
  - (b) \_\_\_\_\_\_ has defined 14 distinct groups of consumers based on recent Census and consumer data that emphasize income, age, and lifestyles. Segments of each group buy the same types of cars, read the same magazines, and watch the same television shows.

	<pre>LIFESTYLE</pre>							
$\wedge$	\ \	URBAN	SUBURBAN	SECOND CITY	TOWN & COUNTRY			
	$\sum_{}$	Urban Uptown	Elite Suburbs	Second City Society	Landed Gentry			
N C		Midtown Mix	The Affluentials	City Centers	Country Comfort			
O M			Middle-burbs	City Certiers	Middle America			
Ϋ́E	7	Urban Cores	Inner Suburbs	Micro-City Blues	Rustic Living			

• Claritas' 14 segments are divided into 66 smaller clusters.

For more, see: USA Today - Who We Are: Redefining our demographics

http://www.usatoday.com/news/graphics/whoweare/flash.htm http://www.claritas.com/MyBestSegments/Default.jsp

- Useful for direct-mail promotions, retail outlet selection, decisions about the mix of products/brands to offer in the area.
- (3) Behavioral Segmentation
  - (a) \_\_\_\_\_ is an "ideal" approach, but often hard to measure
    - (i) Example: What are the benefits of wearing clothing that has label on the outside?
    - (ii) Citicard example:
- (4) Usage Rate
  - (a) Non-users
  - (b) Light users, medium users, heavy users
    - (i) Best Buy Example:

#### VII. "Traditional" Target Market Strategies

a)		differentiated market and size fite all	_ (mass-market,	
	un	differentiated market, one size fits all)		
	i)	Use a	_ for everyone – A	
		"shotgun" approach VERY UNCOMMON; perhaps some		
	ii)	Potential Advantages;		
		(1) Lower	, and	
		(2) Easy to		
b)		Strategy		
	i)	Product differentiation involves using different elen mix to help consumers see the product as being di competition, and "better" for the consumer		

ii) Apple example:

c)	Single-Segment Strategy ()				
	i)	Create a single marketing mix which targets a single, well defined group			
	ii)	Can be a good way to in the broader market			
		(1) Examples			
	iii)	The marketer can earn a reputation as an or a

	iv)	Niche markets are often (though not always) relatively			
		(a) Example:			
	v)	So, this is one way for a firm with to be competitive!			
	vi)	CAUTION: A danger of this approach is that you are			
d)		(1) Example			
α,	i)	Identify MULTIPLE segments, and develop, market, and manage MULTIPLE marketing mix offering attempting to satisfy the needs, wants, and desires of EACH segment with a "" marketing mix			
	e.g	g., Bayer HealthCare Products			
	ii)	Advantages:			
		(1) Eliminate or reduce			
		(2) Become			
	iii)	Disadvantages:			
		(1) Higher			

(2) Higher \_\_\_\_\_

(3) Higher \_\_\_\_\_

(4) SO,

For example it is estimated that \_\_\_\_\_

Examples: Gap Clothing Segmentation and Jeans segmentation

Gap Banana Republic Old Navy Athleta INTERMIX Piperlime

Jeans Example:

- e) Video: Muller on Segmentation at Timken
  - i) Primarily by industry
    - (1) Primary metals
    - (2) Wind energy
    - (3) Power generation
    - (4) Cement
    - (5) Automotive
    - (6) Off highway construction vehicles
  - ii) And then further with micro segmentation
    - (1) Short lead time
    - (2) Longer life
    - (3) More productivity

- iii) Challenge to discover the segment's needs and to create a mix for each
- f. Example: Bayer Consumer Products Example (http://www.consumercare.bayer.com/scripts/pages/en/our\_brands/index.php)
  - i) Background
    - (a) Employees: 6,600
    - (b) Activities in more than 100 countries
    - (c) Sales: Over EUR 2 billion
    - (d) More than 170 brands worldwide
    - (e) Global Headquarters: Morristown, NJ
    - (f) Bayer HealthCare's OTC brands are manufactured around the globe in Europe, North America and Latin America, as well as in Asia.
  - (2) \_\_\_\_\_Major Segments
    - (a) Analgesics: Bayer Aspirin, Aleve, Aktren, and Midol
    - (b) Gastrointestinal: Alka-Seltzer, Lefax, Phillips Milk of Magnesia, Rennie, and Talcid
    - (c) Dermatological: Bepanthen, Bepanthol, Canesten
    - (d) Cough and cold remedies: Alka-Seltzer Plus, Aleve Cold & Sinus, and Tabcin
    - (e) Multivitamins and dietary supplements: Berocca, One-A-Day, Flintstones (complete, gummies, plus, my first Flintstones)
  - (3) Two Major Segments within \_\_\_\_\_
    - (a) Aspirin Regimen
    - (b) Aspirin for Pain Relief

http://www.bayeraspirin.com/products/products.htm

- (c) Multiple offerings within each segment
- VIII. Selecting a Target Market Guidelines
  - a) BEFORE selecting a segmentation strategy, determine the \_\_\_\_\_\_ of the segments.
  - b) Is the segment's needs \_\_\_\_\_\_ with the company's goals
    - i) Example:
  - c) A good \_\_\_\_\_\_ with the company's resources
    - i) Example:
  - d) \_\_\_\_\_ that justify the investment
    - i) The segment must be \_\_\_\_\_

		ii) The segments should be expected to

		iii)	Step 3 Coordinate the marketing mix components to convey a consistent position to the target audience
		iv)	Of course, this can only work if it is a "good" segment and all the segmentation criteria are met!
	Po	sitio	oning Errors
	a)		
		i)	Failing to position the brand very well.
			(1) Examples:
	b)		
			Giving buyers too narrow a picture of the company.
			(1) Example
	c)		
			(1) Claiming two or more contradicting benefits OR changing positions often

- (2) Leaving buyers with a confused image of a company.
  - (a) Example

- XI. Basic Positioning Platforms (and examples)
  - a) Premium Positioning or status symbol
  - b) Value for money
  - c) Friend / family values /warmth
  - d) Problem Solver
  - e) "Fun"
  - f) Trendy / stylish
  - g) Role model/ user imagery (reliability, trust, quality, premium); Celebrity endorsements
  - h) Anti-establishment / rebel
  - i) Technology leader / Innovation
  - j) Service Leader
  - NOTE: It would be simplistic to look at these platforms as independent and exclusive. Many brands can (and do) span more than one platform.

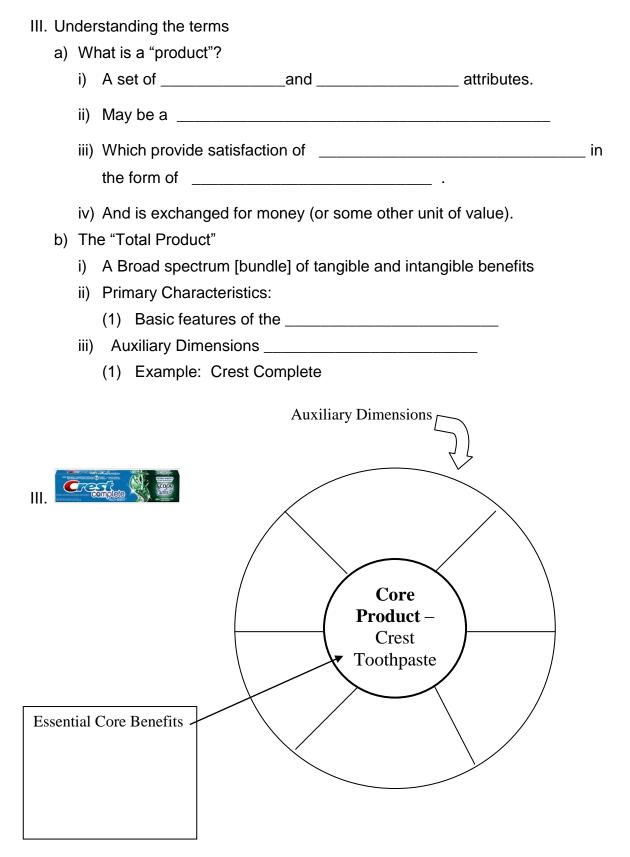

# **Chapter 10 -- Developing New Products and Services**

I. New Products? Who needs 'em?

Examples:

- Thomas Watson, chairman of IBM, 1943
- Thomas Edison, 1922
- Ken Olson, chairman and founder of Digital Equipment Corp., 1977
- Daryl F. Zanuck, president of 20<sup>th</sup> Century Fox, 1946
- Harley-Davidson 2014
- II. Great New Ideas are the cornerstone of business success
  - a) Price Waterhouse Coopers
    - i) 50% or more of plausible business ideas come from customers, competitors, and suppliers.
    - ii) The rest? \_\_\_\_\_
    - iii) The Challenge!
      - How can we stimulate \_\_\_\_\_\_ to make suggestions? and,
      - How can we \_\_\_\_\_ to find promising ideas?
  - b) Imaginatik Innovation Central

Understanding the terms

- c) Product Line
  - i) A group of closely related products that \_\_\_\_\_:
    - (1) a class of needs,
    - (2) are used together,
    - (3) are sold to the same customer group,
    - (4) are distributed through the same type of outlets,
    - (5) or fall within a given price
  - ii) EXAMPLE: Product Lines at Church & Dwight Co. Inc.
    - (1) Personal Care lines:
      - (a) Antiperspirants & Deodorant
      - (b) Eye Care
      - (c) Fertility
      - (d) Hair Removal
      - (e) Nasal Care
      - (f) Oral Care Products
      - (g) Ovulation
      - (h) Wound Wash
    - (2) Household Product lines:
      - (a) Baking Soda
      - (b) Deodorization
      - (c) Fabric Care
      - (d) Household Cleaners
      - (e) Pet Care Products
      - (f) Wood Care
- d) Product Mix
  - i) The number of \_\_\_\_\_\_ offered by a company.
- e) Width of Product Mix
  - i) The number of product lines carried (Church & Dwight is broad; Spyder Paintball is narrower)
- f) Depth of Product Mix
  - i) Average Number of Products in \_\_\_\_\_\_.

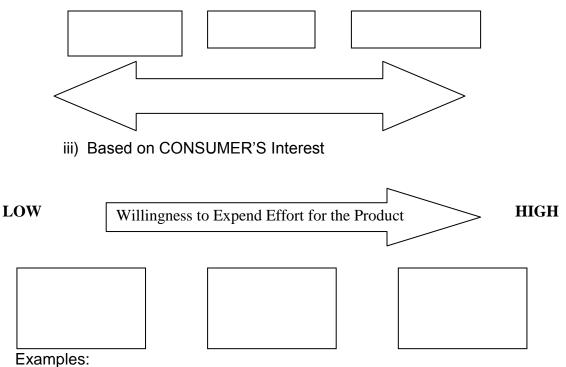

# g) Consistency of Product Mix

- i) How similar are our product lines?
- ii) PRODUCT MIX EXAMPLE:

		Width (Nur	nber of Product Lin	es)

## IV. Classifying Products

- a) Consumer Goods
  - i) products purchased by the \_\_\_\_\_ consumer.
  - ii) Based on Durability/Tangibility Classification (goods-services continuum)

## iv) CONVENIENCE PRODUCTS

- (1) Characteristics:
  - (a) Relatively Inexpensive
  - (b) Purchase is regular and recurring
  - (c) Little Thinking Involved
  - (d) Minimal Shopping Effort
  - (e) Bought a most convenient location
  - (f) "Staple" products, like groceries, and
  - (g) Impulse purchases (candy bar?)
- (2) STRATEGY:
  - (a) Make available in every possible place
  - (b) Must be visible inside the store

- (c) Distribution is a major marketing mix factor
- (d) Easy substitution by similar brands (consumer will accept another brand)
- (e) Extensive advertising is used
- v) Shopping Products
  - (1) CHARACTERISTICS:
    - (a) Product comparisons occur
    - (b) Consumer seek information
    - (c) Decisions are based on thought
    - (d) Relatively higher prices
    - (e) Often technology or fashion oriented
    - (f) Monetary & social risks
    - (g) Brand loyalty may be found
  - (2) STRATEGY:
    - (a) Selective distribution
    - (b) Consumers will seek products in less visible locations
    - (c) Product attributes and Quality are important
    - (d) Product differentiation is possible
- vi) Specialty Products
  - (1) CHARACTERISTICS:
    - (a) Substitutes are not accepted
    - (b) Infrequently purchased
    - (c) Extensive Search
    - (d) Brand loyalty may be strong
    - (e) Loyalty to retailer may be as important as brand selection
    - (f) May travel great distances to acquire
  - (2) STRATEGY:
    - (a) Limited distribution
    - (b) Consumers will seek products regardless of location
    - (c) Extensive product and price differentiation
    - (d) Strong brand image

- vii) Unsought Products
  - (1) CHARACTERISTICS:
    - (a) Consumer does not know about or does not want the product (initially)
    - (b) Interest is likely caused by a "sudden or unexpected problem" (rain = umbrella; death = funeral plot)
    - (c) The consumer is not likely to be loyal and will accept substitutes
  - (2) STRATEGY:
    - (a) Limited distribution
    - (b) Need to advertise so consumers are aware when the need arises
    - (c) May require persistent and aggressive advertising and selling approach

Example: Spectrum Brands Segmented based on Consumer Markets

- b) \_\_\_\_
  - i) Products that assist directly or indirectly in providing products for resale. Also called *B2B goods*, *industrial goods*, or *organizational goods*.
    - (1) **Manufactured materials and component parts:** (electrical resistors, screws, electric motors, computer chips, spark plug)
    - (2) **Process materials (raw materials):** used in production, become part of finished product (chemicals, wood, wheat, cotton)
    - (3) **Installations:** primary production equipment and major capital items (buildings, computer hardware, assembly lines, oil drilling rig)
    - (4) Accessory equipment: (Copiers, office equipment, cell phone, hand tools)
    - (5) Maintenance, Repair, and Operating Supplies: facilitate routine operations (writing paper, staples, tape, Post-it notes)
    - (6) **Services**: intangible product provided by others to facilitate the firm's production and operation (maintenance, repairs, trucking, security service, legal advice, consulting)

- V. Product Development
  - a) The development of \_\_\_\_\_
  - b) The continuous improvement of \_\_\_\_\_\_
  - c) WHY bother?
    - i) Any company that does not innovate will eventually be crushed by competition or abandoned by its consumers
    - ii) "\_\_\_\_\_!"
    - iii) EXAMPLE: Innovation at two very different companies
      - (1) GOOGLE
        - (a) Ideas come from everyone in the company even the finance team.
        - (b) Open information on every project every idea, every deadline.
        - (c) Favor intelligence over experience.
        - (d) Employees get a free day each week to innovate 50 percent of new products come from this time.
        - (e) Don't politic for your idea, use data eliminate 'I like' for real data.
        - (f) Give people a vision, rules how to get there and deadlines creativity loves constraints.
        - (g) Simple to use and easy to love the money will follow this.

### (2) Whirlpool

- (a) Stick with it it can take up to six years to attain a big payback.
- (b) Innovation alone is not enough need operational excellence as well.
- (c) Be highly practical inventions have to be something someone will buy.
- (d) At Whirlpool, sales from new product ideas less than 5 years old were less than \$30 million; today they are more than \$1.2 billion!!

### VI. Differing Perspectives of New Products

- a) Newness Compared with Existing Products -
- b) Newness in Legal Terms—for

after "regular distribution"

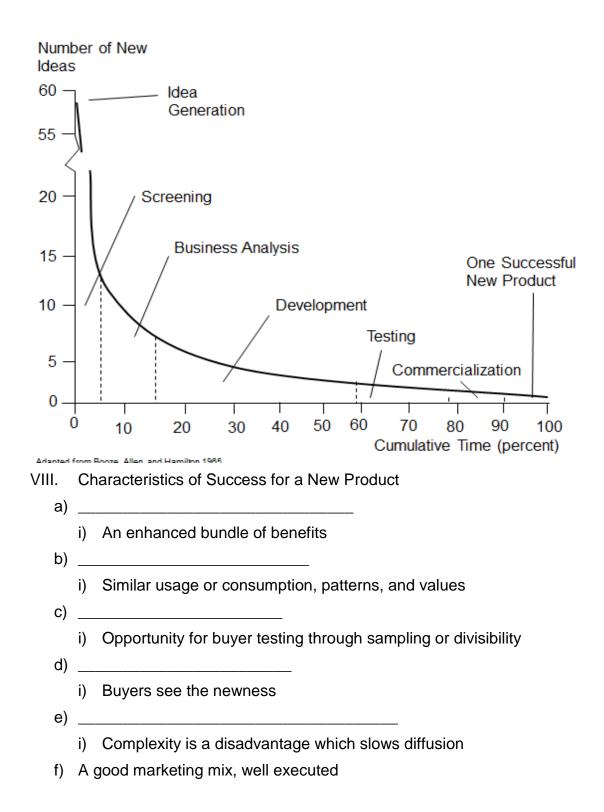

- c) Management perspective:
  - i) New-to-the-world products (true innovation)

- (1) High Risk
- ii) Product category extensions

	(1) Diversification into an established market for an existing product-
	BUT,
iii)	Product line extensions
,	(1) Additions to
d) Co	onsumer Perspective:
, i)	innovations
	(1) Variations of existing products
	(2) No behavior changes or new learning
	Example:
ii)	innovations
	(1) Improvement of existing products
	(2) Minor behavior changes, some new learning
	Example:
iii)	innovations
	(1) New function

(2) Major behavior changes and education needed Example

- III. Product Life Cycle

- a) The PLC shows the \_\_\_\_\_\_ over an extended period of time for all brands comprising a generic product category.
- b) PLC and profit curves varies from product category to another, but above is

the \_\_\_\_\_\_ that we often see.

c) Note the \_\_\_\_\_ profits. Sales are needed to offset product

development costs

 d) As we move through the PLC, we must increase advertising and selling efforts and cut prices in face of \_\_\_\_\_\_.

- k) Why aren't ALL products branded?
  - i) Branding brings responsibilities that some companies do not want: (1) Brands require expensive \_\_\_\_\_
    - (2) Brands require maintenance of \_\_\_\_\_
    - (3) Branding does not make sense if the product cannot be physically

## VIII. Selecting a Brand Name

- k) And the WHOLE FOODS chain becomes interested!!

# **Chapter 12 -- Services Marketing**

Introduction

"Ruby Tuesday Blows up Wrong Restaurant"

The Point

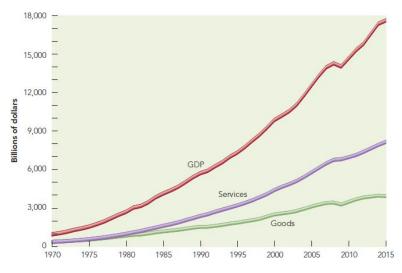

In SERVICES marketing, the "casual dining segment" HAS become a "sea of sameness!"

The industry is not longer providing customers with "Value."

Taco Bell:

- I. Services are a Major Factor in the U.S. economy in dollars and in jobs
  - a) Over \_\_\_\_\_ and \_\_\_\_\_ million jobs!

See Figure 12-1 page 320.

### II. SERVICES Defined

- a) Services are the \_\_\_\_\_\_ or \_\_\_\_\_ that an organization provides to consumers in exchange money or something else of value.
- III. Increase in Services Influenced by:
  - a) Organizations' focus on productivity and profits

- i)
- b) Consumers' \_\_\_\_\_
  - i) Personal Shoppers
  - ii) Take out food
  - iii) House and lawn care

IV. Affecting virtually all industries:

- a) Location--ATMs, branch outlets, branch warehouses, JIT delivery
- b) Longer Business Hours
- c) Better trained sales and service people
- d) One-stop shopping
- e) Improved customer service systems (personal, phone, on-line)
- f) More information available--before, during, and after the sale
- g) ADDS VALUE beyond issues of price and product quality

## V. THE UNIQUENESS OF SERVICES

- a) Four I's of Services
  - i) \_\_\_\_\_
    - (1) Services cannot be
    - (2) SO it is harder to
    - (3) Communications must make these

## (4) Setting Price can be hard

- ii) \_\_\_\_\_
  - (1) Lack of standardization;
  - (2) inconsistent delivery and quality depending
  - (3) Minimize by employee selection, training, and
  - (4) service performance standards.

iii) \_\_\_\_\_

- (1) Simultaneous production and consumption means
  - (a) consumers are a part of the service process;
  - (b) We must manage the interaction for customer satisfaction;
  - (c) educate consumers about the service process and their role in it.
- iv) \_\_\_\_\_
  - Services cannot be inventoried, so it is hard to balance capacity and demand;
  - (2) cannot return service for credit or exchange;
  - (3) need to manage demand in peak periods; use capacity in off-periods
  - (4) Idle production capacity

### Example: JetSuite

VI. Inventory carrying costs of services depend on the cost of employees and

equipment

- a) Core/Primary Services
  - i) The major activity of a business (or nonprofit organization).
    - (1) Example: Investment Services provide the use of a brokerage account to buy and sell stocks
      - (a)
      - (b)
- b) Ancillary Services
  - i) Expected or optional supplements to the primary purchase.
    - (1)
    - (2)
  - ii) Ancillary Services expected in B2B marketing
    - (1)
    - (2)
    - (3)

- VIII. Service as Value
  - a) Consumers & Organizational Buyers want:
    - i) Quality products
    - ii) Right price
    - iii) Qualified Sales/Service personnel
    - iv) Maximum benefits
    - v) Minimum effort
    - vi) Low wait times
    - vii) In other words, they demand \_\_\_\_\_\_!
      - (a) Example: The Casual Dining Industry stopped providing "value"
      - (b) Casual Dining restaurants provide full-service, alcoholic beverages, and CHECK AVERAGES from \$10 to \$23 per person.
      - (c) COMPETITION from "fast-casual" chains are stealing customers
      - (d) Fast-casual chains have no waiters and higher quality food than fast food chains.
        - (i)
        - (ii)
        - (iii)
        - (iv)
        - (v)

IX. VALUE...

a) ...an intangible concept often defined in terms of

- i) exceptional \_\_\_\_\_
- ii) exceptional \_\_\_\_\_
- iii) value-based \_\_\_\_\_

- (a) Example: Casual chains learn from recession
  - (i) During the recession many consumers pulled back on their discretionary spending, which meant eating out at restaurants less frequently if at all.
  - (ii) While economic conditions have begun to improve in the U.S., many consumers are still watching their wallets - preferring to eat at less expensive casual dining chains over pricier upscale restaurants.
  - (iii) Restaurant operators were poorly positioned heading into the recession in 2008 because they had too restaurants.
  - (iv) But the dining chains learned. 30,000 restaurants have closed since then and companies focused more on improving their menus, service and the atmosphere at their storefronts.
  - (v) In 2007, the industry's mentality was "build it and they will come," but today successful restaurant companies are driven by a guest-centric planning process.
  - (vi) That is, casual chains are returning to a "value service proposition."
- X. Competitive Positioning
  - a) Service Image is conveyed by the firm's "service products."
    - i) The dimensions used should be those valued by the customers.
      - (1) Example: What DO consumers want in Casual Dining?
        - (a) Stand for something UNIQUE
          - (i) Cheesecake Factory
            - 1.
          - (ii) Outback
            - 1.
          - (iii) Olive Garden
            - 1.
        - (b) \_\_\_\_\_ Prices

- (c) BETTER \_\_\_\_\_
  - (i) Casual dining was initially successful because it provided better food quality than fast food, at a very reasonable price
  - (ii) Recently, fast food's quality has gone UP with prices rising only slowly
  - (iii) BUT, casual dining's price have risen while food quality and innovation has stagnated!
  - (iv) RUBY TUESDAY is upgrading its food, but it prices are still pretty high.
- (d) IMPROVED SERVICE
  - 1. Slow service
  - 2. Discourteous staff
  - 3. Are NOT what consumers are looking for!!
    - a. Chili's is trying to cut 15 minutes from its 45-minute lunch by testing BlackBerry's that connect directly from the server to the kitchen.
    - b. Chili's is also improving its employee hiring practices
    - c. And the staff is wearing more professional looking aprons
- (e) Better looking stores
  - 1. Most stores are 20-years old!
    - a. Ruby Tuesday has redesigned all of its company-owned stores with contemporary designs and lighter colors.
    - b. Lone Star is replacing concrete floor with wood and is installing oak tables.
  - 2. Get kid-friendly
    - a. Families are a big part of the casual dining industry's market
    - b. Could restaurants have kid playgrounds? Loaner hand held video games?

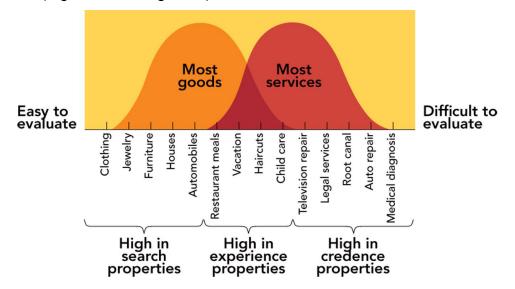

(f) 2015 Survey:

- XI. Service Leadership or Follow the Leader?
  - a) Will you set the service standard or wait for competitors to set the standard and then follow their lead?
    - i) Example:
- XII. Benefits of Exceptional Customer Service
  - a) 5 Tips for Providing Excellent Customer Service
    - i) Provide Multiple Lines of \_\_\_\_\_
    - ii) Respond \_\_\_\_\_ and Thoroughly
    - iii) Walk a Mile In Your \_\_\_\_\_ Shoes
    - iv) Ask for Feedback
    - v) Focus on the Relationship, Not the Sale
  - b) Exceptional Customer Service can \_\_\_\_\_\_ from Competitors
    - i) Services attract & keep customers
    - ii) Services and recover lost sales
    - iii) Service quality is related to customer satisfaction
    - iv) Customer Service usually leads to a profitable ROI in the long term

### XIII. HOW CONSUMERS PURCHASE/EVALUATE SERVICES

- a) The Purchase Process
  - i) \_\_\_\_\_ Properties
    - (1) What consumers can judge prior to the purchase
      - (a) Price, location, appearance of physical facilities, paperwork, interactions with the service provider's staff
  - ii) \_\_\_\_\_ Properties
    - (1) Attributes discernable only during or after the service experience
      - (a) Physical comfort; staff concern
  - iii) \_\_\_\_\_ Properties
    - (1) Attributes inferred from a subjective evaluation of the entire process.
- XIV. Consumers use search, experience, and credence properties to evaluate services (Figure 12-5. Page 308)

--Exceptional Customer Service Seminar

- XV. The Service Design Process
  - a) Customer Targets
    - i) What do they want?
  - b) Nature of the Service
    - i) Complex (medicine, investments) = substantial support services and highly qualified customer contact people
  - c) Pricing?
    - i) Who is the target?
      - (1) How much and how often do they buy?
    - ii) What is the type of service?
    - iii) Can a fee be "justified?"
  - d) Pricing--Costs
    - i) Wages
    - ii) Physical facilities
    - iii) Technology & Equipment
    - iv) Honoring warranties and guarantees
  - e) Degree of Complexity/Uncertainty
    - When complex, customers may need extensive sales assistance, demonstrations, service guarantees, after sale assistance, pre-purchase information
  - f) Marketer's Resources

i) Smaller marketers may need to outsource some customer services to

save costs (pros and cons to this).

- When to use customer service outsourcing (http://www.buyerzone.com/marketing/call\_center/tmm-customer-serviceoutsourcing.html)
  - (1) Significant growth
  - (2) Save money
  - (3) Testing and learning
  - (4) Variable volume
  - (5) Business model shifts
- g) Number of Services
  - i) Focus on services which make a difference in consumers' purchase decisions
  - ii) Remember, customers may be willing to pay some or all of the cost of desired services
- h) Level of Service
  - i) Full service to self-serve?
    - (1) What does your market/target customer call for?
    - (2) What can you support?
- XVI. Service Delivery
  - a) Top-management commitment
  - b) Treat EMPLOYEES as Internal Customers
  - c) View Service as a "Performance"
  - d) Ensure Service Recovery

XVII.	Su	accessful Service Recovery	
a)	Kn	now the costs of	
	i)	For every customer who bothers to con	nplain, there are
	ii)	The average "wronged" customer will te	ell
	iii)	91% of unhappy customers will never p	ourchase services from you again.
	iv)	It costs about	as much to attract a new
customer as it costs to keep an old one.			ð.
	V)	Each one of your customers has a circl potential customers who hear bad thing	• •
(1) Example: Two Outback Steakhouse EX-custor back since a server and a manager argued wit about how a steak was cooked!!			
		Bad service =	
		Loss of loyal c	ustomers
		Loss of custon	ners who hear bad things
		of gaining replace	ment customers
		Loss of profit	
		Loss of reputation	
		Loss of employees due to poor morale!	!!
b) Listen to the customerget them to talk			
c)	An	nticipate potential failures	
d) Act fast			

e) Train employees

- f) Empower the front line
- g) Close the Loop--get back to the customer

Video: Chef Ramsey's Cardinal Rule

- 1. Chef Ramsey helps a restaurant by revamping the menu and the layout.
- 2. The owners book TWO seatings for mother's day.
  - a) A table of 19, 15, 14 all coming at the same time!
  - b) The Kitchen is overwhelmed!
- 3. The owner's must learn a "\_\_\_\_\_:"
- 4. Put the \_\_\_\_\_\_, make them feel really special, and build a sense of \_\_\_\_\_\_!
- 5. These customers have waited 1.5 hours!
- 6. Remember, "Unhappy customers \_\_\_\_\_\_!!"
- 7. An excellent lesson whether selling a Service OR a product!!
