Assignment #1  (Due 02/06/08)
http://www.cs.kent.edu/~asamba/cs10061/assignment.html

Answer all questions

1. Write a program that allows a user to enter his or her two favorite food names. The program should then print out the name of a new food by joining the original food names together

2. Write a Tipper program where the user enters a restaurant bill total. The program should then display the two amounts: a 15-percent tip and a 20-percent-tip

3. Write a Car Salesman program where the user enters the base price of a car. The program should add on a bunch of extra fees such as tax, license, dealer prep, and destination charge. Make tax and license a percent of the base price. The other fees should be set values. Display the actual price of the car once all the extras are applied
