			We are small and don't get esoteric materials often.
			We had problems with finding specifically Korean language expertise because it was grouped with CJK
			We are aware of the project and completed the initial forms but have never actually used the page
			We were involved in 3 of the CollaboraTeS pilot projects so we knew about this resource and the effectiveness of collaborating. I don't know if we would have thought to check this page otherwise.
			We were looking for specific information outside of list.
Q2		5	If you have used the inventory to identify institutions having expertise, what types of needs did other OhioLINK institutions provide for you?
			I needed some Chinese cataloging, but at this point have made no progress.
			Did not contact them yet.
			We haven't done that.
			We needed expertise with an authority database clean-up project and with loader tables. We worked with both KSU and YSU staff to help guide us through the decision making process and with very specific technical snags that we were experiencing. Their help was wonderful!
			Cataloging Arabic
Q3		2	If you have used the inventory to identify institutions that could benefit from expertise that you have, what types of needs did you provide?
			We haven't done that yet
			Our former head of metadata completed a project with meg@OhioLINK
Q4		20	Has your institution been contacted by other OhioLINK institutions because of the CollaboraTeS project?
	95%	19	No we have not been contacted
	5%	1	Yes we have been contacted
	0%	0	Yes we have been contacted more than once
