

## **Madeleine Hunter 8 Step Lesson Plan**

The following is a reconstruction of Madeleine Hunter's 7 Step lesson plans based upon my **years** of submitting such lesson plans as a teacher.

### **1. Introductory Set**

What are you going to do to get the students involved in the class and to introduce what you are going to do in this lesson?

### **2. Objective/purpose**

What do you want your students to be able to do after this lesson?

### **3. Input**

This is where you explain how you are going to teach the class to do the skills listed in the Objective portion of the lesson plan.

### **4. Modeling**

Demonstrate on concrete examples how you would carry out what you've shown them in the input portion of the lesson.

### **5. Check of Understanding**

How do you know that the students have understood the lesson so far?

### **6. Guided Practice**

How can they practice under your supervision?

### **7. Homework**

How can they practice alone?

### **8. Closure**
