Relja Vulanović's Numerical Analysis Research Publications

October 31, 2023

1. D. Herceg & R. Vulanović (1981). Some finite-difference schemes for a singular perturbation problem on a non-uniform mesh, *Univ. u Novom Sadu, Zb. Rad. Prirod.-Mat. Fak., Ser. Mat.* 11, 117–134.

2. D. Herceg & R. Vulanović (1981). On optimization of a numerical method for a boundary value problem with a boundary layer, (in Serbian), *Proc. II. Conference on Applied Mathematics* (Z. Bohte, ed.), Society of Mathematicians, Physicians and Astronomers of Slovenia, Ljubljana, 39–52.

3. R. Vulanović (1982). An exponentially fitted scheme on a non-uniform mesh, *Univ. u Novom Sadu, Zb. Rad. Prirod.-Mat. Fak., Ser. Mat.* 12, 205–215.

4. R. Vulanović (1982). An approach to the numerical solution of a second-order contour problem with a small parameter, (in Serbian), *Proc. III. Conference on Applied Mathematics* (D. Herceg, ed.), University of Novi Sad, 131–139.

5. R. Vulanović (1983). On a numerical solution of a type of singularly perturbed boundary value problem by using a special discretization mesh, *Univ. u Novom Sadu, Zb. Rad. Prirod.-Mat. Fak., Ser. Mat.* 13, 187–201.

6. R. Vulanović (1984). Mesh construction for numerical solution of a type of singular perturbation problems, *Proc. Conference on Numerical Methods and Approximation Theory* (G. V. Milovanović, ed.), University of Niš, 137–142.

7. R. Vulanović (1985). Exponential fitting and special meshes for solving singularly perturbed problems, *Proc. IV. Conference on Applied Mathematics* (B. Vrdoljak, ed.), University of Split, 59–64.

8. R. Vulanović (1985). On numerical solution of singularly perturbed boundary value problem with two small parameters, *Proc. II. Conference on Numerical Methods and Approximation Theory* (D. Herceg, ed.), University of Novi Sad, 65–71.

9. R. Vulanović, D. Herceg, & N. Petrović (1986). On the extrapolation for a singularly perturbed boundary value problem, *Computing* 36, 69–79.

10. R. Vulanović (1986). On numerical solution of a singular perturbation problem with mixed boundary conditions, *Proc. GAMM Annual Congress, Z. Angew. Math. Mech.* 66, T334–T335.

11. R. Vulanović (1986). A second order uniform method for singular perturbation problems without turning points, *Proc. V. Conference on Applied Mathematics* (Z. Bohte, ed.), University of Ljubljana, 183–194.

12. R. Vulanović (1987). Non-equidistant generalizations of the Gushchin-Shchennikov scheme, *Z. Angew. Math. Mech.* 67, 625–632.

13. R. Vulanović (1988). A second order uniform numerical method for a turning point problem, *Univ. u Novom Sadu, Zb. Rad. Prirod.-Mat. Fak., Ser. Mat.* 18(1), 17–30.

14. R. Vulanović (1988). On a numerical solution of a power layer problem, *Proc. III. Conference on Numerical Methods and Approximation Theory* (G. V. Milovanović, ed.), University of Niš, 423–431.

15. R. Vulanović (1988). Higher order monotone schemes for a nonlinear singular perturbation problem, *Proc. GAMM Annual Congress, Schtuttgart, Z. Angew. Math. Mech.* 68, T428–T430.

16. R. Vulanović (1988). On numerical solution of some quasilinear turning point problems, *Proc. BAIL V.* (Guo Ben-yu, J.J.H. Miller & Shi Zhong-ci, eds.), Boole Press, Dublin, 368–373.

17. R. Vulanović (1989). On numerical solution of a turning point problem, *Univ. u Novom Sadu, Zb. Rad. Prirod.-Mat. Fak., Ser. Mat.* 19(1), 11–24.

18. R. Vulanović, D. Herceg, & N. Petrović (1989). A numerical solution of the singular perturbation problem arising from a weakly coupled system, *Univ. u Novom Sadu, Zb. Rad. Prirod.-Mat. Fak., Ser. Mat.* 19(1), 25–32.

19. R. Vulanović (1989). Mesh generation methods for numerical solution of quasilinear singular perturbation problems, *Univ. u Novom Sadu, Zb. Rad. Prirod.-Mat. Fak., Ser. Mat.* 19(2), 171–193.

20. D. Herceg, R. Vulanović, & N. Petrović (1989). Higher order schemes and Richardson extrapolation for singular perturbation problems, *Bull. Austral. Math. Soc.* 39, 129–139.

21. R. Vulanović (1989). A uniform numerical method for quasilinear singular perturbation problems without turning points, *Computing* 41, 97–106.

22. R. Vulanović (1989). Finite-difference schemes for quasilinear singular perturbation problems, *J. Comput. Appl. Math.* 26, 345–365.

23. R. Vulanović (1989). Quasilinear singular perturbation problems and the uniform L_1-convergence, *Proc. GAMM Annual Congress, Z. Angew. Math. Mech.* 69, T130–T132.

24. R. Vulanović (1989). Finite-difference schemes for quadratic and super-quadratic singular perturbation problems, *Proc. International Seminar on Discretization Methods in Singular Perturbations and Flow Problems* (L. Tobiska, ed.), Technical University Magdeburg, 89–96.

25. R. Vulanović (1990). Continuous and numerical analysis of a boundary shock problem, *Bull. Austral. Math. Soc.* 41, 75–86.

26. R. Vulanović (1990). On numerical solution of a mildly nonlinear turning point problem, *RAIRO Math. Model. Numer. Anal.* 24, 765–784.

27. R. Vulanović (1990). Some improvements of the non-equidistant Engquist-Osher scheme, *Appl. Math. Comput.* 40, 147–164.

28. R. Vulanović (1990). A switching scheme for quasilinear problems without turning points, *Proc. VII. Conference on Applied Mathematics* (R. Scitovski, ed.), University of Osijek, 219–225.

29. R. Vulanović (1991). Non-equidistant finite-difference methods for elliptic singular perturbation problems, *Computational Methods for Boundary and Interior Layers in Several Dimensions* (J.J.H. Miller, ed.), Boole Press, Dublin, 203–223.

30. R. Vulanović (1991). On numerical solution of quasilinear boundary value problems with two small parameters, *J. Comput. Math.* 9, 321–329.

31. R. Vulanović (1991). A second order numerical method for nonlinear singular perturbation problems without turning points, *Zh. Vychisl. Mat. i Mat. Fiz.* 31, 522–532.

32. R. Vulanović (1991). An L^1-stable scheme for linear turning point problems, *Z. Angew. Math. Mech.* 71, 403–410.

33. R. Vulanović (1991). A note on upwind schemes for a stationary shock problem, *Facta Universitatis (Niš), Ser. Math. Inform.* 6, 139–143.

34. P.A. Farrell & R. Vulanović (1991). Analytic estimates and uniform numerical methods for multiple turning point problems, *Proc. ISAM '91* (H.-G. Roos, A. Felgenhauer, & L. Angermann, eds.), Technical University Dresden, 33–38.

35. R. Vulanović (1991). On numerical solution of a nonlinear singularly perturbed parabolic problem, *Proc. ISAM '91* (H.-G. Roos, A. Felgenhauer & L. Angermann, eds.), Technical University Dresden, 169–178.

36. R. Vulanović (1991). A uniform numerical method for a class of quasilinear turning point problems, *Proc. 13th IMACS World Congress on Computation and Applied Mathematics* (J.J.H. Miller & R. Vichnevetsky, eds.), 493.

37. R. Vulanović (1991). On numerical methods for interior shock layer problems, *Proc. 13th IMACS World Congress on Computation and Applied Mathematics, Dublin, Ireland, 1991* (J.J.H. Miller & R. Vichnevetsky, eds.), 515.

38. R. Vulanović (1992). Some switching schemes for quasilinear singular perturbation problems, *Appl. Numer. Math.* 9, 143–155.

39. R. Vulanović & P. Lin (1992). Numerical solution of quasilinear attractive turning point problems, *Computers Math. Applic.* 23, 75–82.

40. R. Vulanović & P.A. Farrell (1992/96). Analysis of multiple turning point problems, *Rad. Math.* 8, 105–113.

41. R. Vulanović, P.A. Farrell, & P. Lin (1993). Numerical solution of nonlinear singular perturbation problems modeling chemical reactions, *Applications of Advanced Computational Methods for Boundary and Interior Layers* (J.J.H. Miller, ed.), Boole Press, Dublin, 192–213.

42. R. Vulanović (1993). On numerical methods for quasilinear singular perturbation problems without turning points, *Univ. u Novom Sadu, Zb. Rad. Prirod.-Mat. Fak., Ser. Mat.* 23(1), 361–370.

43. R. Vulanović & D. Herceg (1993). The Hermite scheme for semilinear singular perturbation problems, *J. Comput. Math.* 2, 162–171.

44. R. Vulanović (1993). On numerical solution of semilinear singular perturbation problems by using the Hermite scheme, *Univ. u Novom Sadu, Zb. Rad. Prirod.-Mat. Fak., Ser. Mat.* 23(2), 363–379.

45. R. Vulanović & P.A. Farrell (1993). Continuous and numerical analysis of a multiple boundary turning point problem, *SIAM J. Numer. Anal.* 30, 1400–1418.

46. H.-G. Roos & R. Vulanović (1993). A higher order uniform convergence result for a turning point problem, *Z. Anal. Anwend.* 12, 723–728.

47. R. Vulanović & Z. Ovcin (1994). On mesh generation for singular perturbation problems, *Univ. u Novom Sadu, Zb. Rad. Prirod.-Mat. Fak., Ser. Mat.* 24(1), 331–240.

48. R. Vulanović (1994). Numerical solution of quadratic boundary value problems, *Mathl. Comput. Modelling* 20, 1–11.

49. K. Surla & R. Vulanović (1994). Exponential spline difference scheme for boundary turning point problems, *Proc. VIII. Conference on Applied Mathematics*, Univ. Montenegro, Podgorica, 225–229.

50. R. Vulanović (1995). A uniform convergence result for semilinear singular perturbation problems violating the standard stability condition, *Appl. Numer. Math.* 16, 383–399.

51. R. Vulanović (1996). Numerical methods for quadratic singular perturbation problems, *Proc. Dynamic Systems and Applications 2*, 543–551.

52. R. Vulanović (1997). Fourth order algorithms for a semilinear singular perturbation problem, *Numer. Algor.* 16, 117–128.

53. R. Vulanović (1997). Super-time-stepping for nonlinear singular perturbation problems, *Nonlinear Analysis* 30, *Proc. 2nd World Cong. of Nonlinear Analysts (WCNA '96)*, 67–72.

54. R. Vulanović (2000). A higher-order method for stationary shock problems, *Appl. Math. Comput.* 108, 139–152.

55. R. Vulanović (2001). A priori meshes for singularly perturbed quasilinear two-point boundary value problems, *IMA J. Numer. Anal.* 21, 349–366.

56. T. Linß, H.-G. Roos, & R. Vulanović (2001). Uniform pointwise convergence on Shishkin-type meshes for quasilinear convection-diffusion problems, *SIAM J. Numer. Anal.* 38, 897–912.

57. R. Vulanović (2001). Special meshes and higher-order schemes for singularly perturbed boundary value problems, *Novi Sad J. Math.* 31(1), 1–7.

58. R. Vulanović (2001). A higher-order scheme for quasilinear boundary value problems with two small parameters, *Computing* 67, 287–303.

59. a. T. Linß & R. Vulanović (2001). Uniform methods for semilinear problems with an attractive turning point, *Novi Sad J. Math.* 31(2), 99–114.
    b. T. Linß & R. Vulanović (2002). Uniform methods for semilinear problems with attractive turning points, *Proc. Appl. Math. Mech.* 1, 518–519.
