About the Author

You can read more information on IDC's Tracker Web page.

IDC's Tracker Web page provides detailed analysis and forecasts of the mobile and connected device market, including analysis of the smartphone, tablet, and wearables markets. The Tracker Web page offers subscribers access to the most up-to-date data and analysis on the mobile and connected device market, allowing them to make informed decisions about their business strategies.

More than 9.5 billion connected devices were shipped in 2016, with smartphones and tablets accounting for the majority of shipments. IDC expects this trend to continue in 2017, as the market for connected devices continues to grow.

IDC's Tracker Web page is available to subscribers. To learn more about how IDC can help your business, please visit IDC.com/Tracker or contact your local IDC sales representative.

IDC's Tracker Web page is a valuable resource for professionals in the mobile and connected device market. Whether you're looking to stay ahead of the curve or better understand the trends driving the industry, IDC's Tracker Web page has the information you need.
