Cameron C. Lee, Ph.D.

Kent State University Department of Geography 433 McGilvrey Hall climate.kent.edu cclee@kent.edu June 2025

RESEARCH INTERESTS

Climate science, climate change & variability, applied climatology, synoptic climatology With applications to: sea-level variability, human health, extreme events, teleconnections

EDUCATION

Ph.D., Geography (Climate Science), Kent State University	2014
M.A., Geography (Climate Science), Kent State University	2010
B.S., Radio and Television, Kent State University	2003

CURRENT POSITIONS

Associate Professor, Kent State University, Department of Geography	2024 -
PI & Director, <u>ClimRISE Lab</u>	2022 -
Associate Editor, Journal of Applied Meteorology & Climatology	2023 -
Managing Editor, International Journal of Biometeorology	2015 -
Research Consultant, Applied Climatologists, Inc.	2012 -

PREVIOUS EXPERIENCE

Assistant Professor, Kent State University, Department of Geography	2016 - 2024
Tenure-Track	2021 - 2024
Non-Tenure Track – Research Track	2016 - 2021
Research Faculty, Kent State University, Department of Geography	2014 - 2016
Adjunct Faculty, Kent State University, Department of Geography	2015 - 2016
Graduate Assistant (Research & Teaching), Kent State Geography	2009 - 2014
National Science Foundation Fellowship, Kent State Geography	2009

FUNDED RESEARCH (15 funded projects, totaling \$2,140,359; Gray – non-current)

GeoXO Lightning Climatology Study – On the Relationship between Synoptic-scale Atmospheric Patterns and Lightning (Subcontract)

Institutional PI; \$89,383; 2024-2026 (Lead-PI: Dr. Daile Zhang, University of Maryland) National Oceanic and Atmospheric Administration, National Environmental Satellite Data and Information Service

Excess Heat and Excess Cold Factors: Establishing a unified duration-intensity metric for monitoring hazardous temperature conditions in North America

Principal Investigator; \$387,057; 2022-2025

National Oceanic and Atmospheric Administration, Climate Program Office NOAA Award Number NA22OAR4310142

CISESS: Advancing GOES-R GLM and MALMA Science (Subcontract)

Institutional PI; \$83,919; 2023-2025 (PI: Dr. Guangyang Fang, University of Maryland) National Oceanic and Atmospheric Administration, National Environmental Satellite Data and Information Service

Modeling Drivers of Blue Crab Recruitment, Abundance and Resilience in the Chesapeake Bay Using Synoptic Climatological Methods

Principal Investigator and Research Consultant; \$46,500; 2024-2025 National Oceanic and Atmospheric Administration; via Applied Climatologists Inc. Contract #1333MG24P0027

Using Weather Pattern Classification to Assess Projected Changes in Tornadoes **Principal Investigator**; \$20,984; 2023-2025 EPRI; Contract ID: 10016806

NOAA – NASA RISE Project - Using Synoptic-based Models, satellite ocean observations and climatology to support monthly to seasonal predictions of anomalous sea levels Research Consultant; \$93,000; 2022-2024

National Oceanic and Atmospheric Administration; via Applied Climatologists Inc. Contract #1305M222PNCNS0284 (FY2023) & #1305M223PNCNS0347 (FY2024)

Towards a Universal Mortality-Adjusted Temperature

Principal Investigator; \$10,000; Summer 2021

Kent State University; Research & Sponsored Programs (Summer Research and Creative Activity Appointment)

Using a synoptic climatological framework to assess predictability of anomalous coastal sea levels in NOAA high priority areas

Co-Investigator; \$286,932; 2017-2022 (PI: Scott Sheridan, Kent State University) National Oceanic and Atmospheric Administration, Climate Program Office

Developing extreme event climate change indicators related to human thermal comfort **Principal Investigator**; \$269,456; 2017-2021. National Oceanic and Atmospheric Administration, Climate Program Office NOAA Award Number NA17OAR4310159

The Development of a Water Clarity Index for the Great Lakes as a Climate Indicator Co-Investigator; \$565,024; 2016-2021 (PI: Scott Sheridan, Kent State University) National Aeronautics and Space Administration

Enhancing climate preparedness through geodesign of urban green space Co-Principal Investigator (PIs: S. Sheridan and V. Kelly Turner); \$12,000; 2018-2019 Kent State University; Research & Sponsored Programs (Environmental Science and Design Research Initiative; 2018 Seed Grant Program) Enhancing the Teaching and Learning of Biometeorology in Higher Education Co-Investigator; \$15,000; 2016 (PI: Jennifer Vanos, Texas Tech University) Tromp Foundation, International Society of Biometeorology

Detecting and forecasting Climate Effects on Spatial Patterns of Biodiversity and Productivity in West Coast Sanctuaries: A Collaboration with the Marine Biodiversity Observational Network (MBON)

Research Consultant; \$40,000; 2015-2016 National Oceanic and Atmospheric Administration; via Applied Climatologists Inc. Contract EA-133C-15-SE-1454

A synoptic climatological assessment of atmospheric impacts on short-term sea-level variability and its impacts along the mid-Atlantic coast

Research Consultant; \$25,000; 2014-2015 National Oceanic and Atmospheric Administration; via Applied Climatologists Inc. Contract EA-133C-14-SE-3728

Development of a Water Quality Index for the Southeastern U.S. as a Climate Indicator Named Research Assistant; \$196,104; 2013-2014 (PI: S. Sheridan, Kent State University) National Aeronautics and Space Administration

RESEARCH PRESENTATIONS (47 total)

NOTES: only listed if presenting author; oral presentation (unless otherwise noted)

- Air masses as predictors of temperature-related mortality 121st Annual Meeting of the American Association of Geographers Detroit, Michigan; March 2025
- Using Artificial Neural Networks and Synoptic Climatology to Project Future Tornadoes 105th American Meteorological Society Annual Meeting New Orleans, Louisiana; January 2025

Relating synoptic air masses to human mortality European Meteorological Society Annual Meeting Barcelona, Spain; September 2024

Weather Whiplash: Trends in Rapidly Changing Temperature Events 120th Annual Meeting of the American Association of Geographers Honolulu, Hawaii; April 2024

Identifying the synoptic-scale weather influences driving sea-level variability AGU Ocean Sciences Meeting New Orleans, Louisiana; February 2024 (POSTER)

- Are Air Masses Better Predictors of Tree Growth Than Temperature and Precipitation? 105th Fall Meeting of the American Geophysical Union San Francisco, California; December 2023 (POSTER)
- Investigating multivariate surface air masses as drivers of tree growth 22nd International Congress of Biometeorology Tempe, Arizona; May 2023
- Developing a universal mortality-calibrated metric for human thermal comfort 22nd International Congress of Biometeorology Tempe, Arizona; May 2023
- Synoptic-scale weather impacts on daily sea-level variability 119th Annual Meeting of the American Association of Geographers Denver, Colorado; March 2023
- Weather Whiplash: The long-term trends in rapidly changing temperature events 104th Fall Meeting of the American Geophysical Union Chicago, Illinois; December 2022 (Oral Presentation)

Climate change is more than average: contrasting trends in means versus trends in extremes in a warming climate

118th Annual Meeting of the American Association of Geographers New York City, New York; February 2022 (REMOTE – COVID)

Greater than averages: how metrics of extreme weather are trending differently than averages would suggest

103rd Fall Meeting of the American Geophysical Union New Orleans, Louisiana; December 2021 (POSTER)

The development and application of a new global-scale air mass classification 117th Annual Meeting of the American Association of Geographers Seattle, Washington; April 2021 (REMOTE – COVID)

- Global Trends in Air Mass Frequencies: Multivariate Indicators of Climate Change 102nd Fall Meeting of the American Geophysical Union San Francisco, California; December 2020 (REMOTE – COVID)
- Development and applications of a new global-scale weather type classification 116th Annual Meeting of the American Association of Geographers Denver, Colorado; April 2020 (CANCELLED (COVID))

Leveraging Machine Learning and Synoptic Climatology to Model and Forecast Water Clarity in the Great Lakes

101st Fall Meeting of the American Geophysical Union San Francisco, California; December 2019 (POSTER)

- A global-scale gridded classification of multivariate surface weather types: the GWTC-2 European Meteorological Society Annual Meeting Copenhagen, Denmark; September 2019
- Multi-decadal changes to the frequency of North American Weather Types 115th Annual Meeting of the American Association of Geographers Washington, D.C.; April 2019
- The Changing Frequency of Spatiotemporally-Relative Weather Types across North America 6th Annual Kent State Environmental Science & Design Research Symposium Kent, Ohio; March 2019 (POSTER)
- Changing Frequencies of Spatiotemporally-Relative Surface Weather Types in North America 100th Fall Meeting of the American Geophysical Union Washington, D.C.; December 2018 (POSTER)
- Long-term trends in the frequency of North American weather types 41st Applied Geography Conference Kent, OH; October 2018

Modeling Temperature-Related Mortality using Nonlinear Autoregressive Models with Exogenous Input

Joint Annual Meeting of the International Society of Exposure Science and the International Society for Environmental Epidemiology Ottawa, Ontario, Canada; August 2018

Using nonlinear autoregressive models with exogenous input to analyze temperature-related human mortality

9th Conference on Environment and Health, as part of the 98th American Meteorological Society Annual Meeting Austin, TX; January 2018 Modeling weather impacts on human mortality using non-linear autoregressive models with exogenous input (NARX models) - presented by Scott Sheridan

20th International Congress of Biometeorology Durham, United Kingdom; September 2017

Synergistic impacts of multiple teleconnections on North American surface weather types 113th Annual Meeting of the American Association of Geographers Boston, MA; April 2017

Analyzing teleconnective impacts on surface weather types using self-organizing maps 39th Applied Geography Conference Louisville, KY; October 2016

Enhancing Undergraduate Biometeorology Education 23rd Annual University Teaching Council Celebration of College Teaching Conference Kent, OH; October 2016 (POSTER)

Using circulation patterns and weather types to model water clarity in the Gulf of Mexico 112th Annual Meeting of the American Association of Geographers San Francisco, CA; March 2016

A synoptic climatological approach to modeling daily water clarity using neural network-based time-series models.

3rd Annual Water Research Symposium at Kent State University Kent, OH; October 2015 (POSTER)

Linking synoptic weather and ocean light attenuation variability in the Gulf of Mexico: constructing a 65-year Kd-Index

95th American Meteorological Society Annual Meeting Phoenix, AZ; January 2015

Wintertime associations between spatiotemporally-relative synoptic weather types and lagged cardiovascular mortality across various US climate regions 20th International Congress of Biometeorology

Cleveland, OH; October 2014

Utilizing a New Gridded Weather Typing Classification Scheme to Evaluate the Relationship between Meteorological Conditions and Cardiovascular-Related Mortality 110th Annual Meeting of the American Association of Geographers Tampa, FL; April 2014

Cardiovascular-Related Mortality and Links to Multivariate Surface Weather Types 29th Annual Kent State University Graduate Student Symposium Kent, OH; April 2014 (POSTER) Assessing the Link between Weather Patterns and Water Quality using a Synoptic Climatological Approach

The 1st Annual Water Research Symposium at Kent State University Kent, OH; November 2013 (POSTER)

The Development of an Automated and Gridded Synoptic Classification for Surface Weather Types

13th European Meteorological Society Annual Meeting and 11th European Conference on Applications of Meteorology

Reading, United Kingdom; September 2013

- Linking Synoptic Weather Types and Asthma-Related Hospital Admissions in New York State 13th European Meteorological Society Annual Meeting and 11th European Conference on Applications of Meteorology Reading, United Kingdom; September 2013
- Circulation Pattern & Weather Type Associations with the Air Quality Index in Cleveland, Ohio 28th Annual Kent State University Graduate Student Symposium Kent, OH; April 2013

Relating Climate to the Air Quality Index in Cleveland, Ohio Using a Combined Synoptic Climatological Methodology

109th Annual Meeting of the American Association of Geographers Los Angeles, CA, April, 2013

Projecting Future Heat-Related Mortality in California Using Synoptic Methods 24th Annual Conference of the International Society of Environmental Epidemiology Columbia, SC; August 2012

The Impacts of Short-Term Weather Variability on Chlorophyll Levels near the Florida Gulf Coast

27th Annual Kent State University Graduate Student Symposium Kent, OH; April 2012

Relating Chlorophyll Levels near the Florida Gulf Coast to Regional Synoptic Sea Level Pressure Patterns

108th Annual Meeting of the American Association of Geographers New York, NY; February 2012

Seasonal and Lagged Effects of Synoptic Weather Types on Asthma-Related Hospital Admissions in New York State

19th International Congress of Biometeorology Auckland, New Zealand, December 2011

Associating Asthma Admissions to Synoptic Weather Types in New York State 26th Annual Kent State University Graduate Student Symposium Kent, OH; April 2011 Relating Weather Types to Asthma-Related Hospital Admissions in New York State 107th Annual Meeting of the American Association of Geographers Seattle, WA; April 2011

The Relationship of Large-Scale Atmospheric Circulation Patterns to Tornadoes and the Impacts of Climate Change

Geography Department Colloquium, Kent State University Kent, OH; April 2010

The Relationship of Large-Scale Atmospheric Circulation Patterns to Tornadoes and the Impacts of Climate Change

106th Annual Meeting of the American Association of Geographers Washington, D.C.; April 2010

A Synoptic Climatology of United States Tornado Days and the Impacts of Climate Change 25th Annual Graduate Student Senate Colloquium; Kent State University Kent, OH; April 2010

INVITED PRESENTATIONS

- Synoptic Climate & AI: Leveraging GCM Strengths to Model Future Tornadoes **Invited Presentation** to EPRI's 28th Energy and Climate Research Seminar; Topic: Addressing Climate Resilience through Research and Industry Partnerships; Washington, D.C., May 2025.
- Climate and AI Research at Kent State University **Invited Presentation** to NOAA's Webinar Series on AI Applications in Earth System and Climate Science: Climate Variability and Extremes; <u>Virtual</u>; April 2025
- Sea-Level Variability and Prediction using Synoptic Patterns Invited Presentation to NOAA's Sea-Level Symposium Series; Virtual; July 2023
- More than Just Averages: Regional Trends of Various Key Indicators of Extreme Weather Invited Presentation to NOAA's NIHHIS Urban Heat Island Community of Practice Webinar Series; Virtual; July 2021

Climate Change: Extremes and Human Health

Invited Guest Lecture to Texas State University Graduate-level Geography course on Global Climate Change; Virtual; November 2019

Heat Waves Module

Invited Speaker at the Earth Systems Science Workshops for K-12 Teachers; Kent, Ohio; October 2016

Climate and Air Quality in Cleveland, Ohio: A Combined Synoptic Climatological Approach **Invited Presentation** at the University of Akron; Geosciences Seminar Series Akron, OH; February 2014

A Spatial Synoptic Classification Approach to Projected Heat Vulnerability in California Under Future Climate Change Scenarios

Invited presentation to the California Air Resources Board. Co-presenter with Dr. Scott Sheridan; Sacramento, CA; February 2011

Projecting Future Tornado Days with Synoptic Methods **Invited presentation** to the Northeast Ohio Chapter of the American Meteorological Society; Kent, OH; September 2010

COURSES TAUGHT (gray: have not taught in 3+ years)

Applied Climatology (3 times, next in Fall 2026) Fundamentals of Meteorology (3 times, last in Fall 2023) Geography of the United States & Canada (3 times, last in Spring 2012) Glaciers & Glaciation (1 time, Fall 2015) Global Climate Change (many times, every semester) Physical Geography (many times, last in Spring 2024) Physical Geography Laboratory (6 times, last in Fall 2020)

MENTORING AND ADVISEMENT

NOTE: Kent State University; Department of Geography, unless otherwise noted

Postdoctoral Scholars: Chibuike Ibebuchi (2023 –)

Dissertation / Thesis Advisor:

Oluwaferanmi Akinyemi M.S., anticipated completion in 2025 Kaylie Craft M.S., anticipated completion in 2026 Michael Crowell M.S., anticipated completion in 2025 Omon Obarein Ph.D., anticipated completion in 2025 M.A., completed 2020

Dissertation / Thesis Committee Member:

Ryan Adams M.A., completed 2017 Syed Muhimeen Ahmed Ph.D., anticipated completion in 2025 Andrews Boateng Ph.D., anticipated completion in 2025 Md. Rafiqul Islam Ph.D., completed 2020 Seth Rainey M.S., completed 2024 Alindomar Lacerda Silva Ph.D., anticipated completion in 2025 Erik Tyler Smith Ph.D., completed 2021 M.A., completed 2017

Senior Honors Thesis Committee Member:

Stephanie Petrycki (2024)

Supervision of Honors Projects

Tyler Horgan (Fall 2022 – Global Climate Change) Ciara Matos (Spring 2023 – Global Climate Change) Stephanie Petrycki (Spring 2023 – Global Climate Change) Molly Postlethwait (Fall 2022 – Global Climate Change) Miles Powell (Spring 2022 – Global Climate Change) Andrew Shenal (Spring 2024 – Global Climate Change)

Undergraduate Mentoring:

Michael Crowell

- 2019 Summer Undergraduate Research Experiences Program; Primary Mentor
- Spring 2020 Individual Investigation in Geography; Primary Mentor Nichole Ortiz Jimenez
 - 2019 Access and Support for Successful Undergraduate Research Experience Program; Co-Faculty Mentor (Primary: Scott Sheridan)

SERVICE

Kent State University

Faculty Advisory Council; Office of Research & Economic Development (2024 - present)

Kent State University, Department of Geography (Gray: non-current):

Reappointment, Tenure and Promotion Committee (2024 – present) Faculty Advisory Committee (2022 – present) Coordinator, Climate Change Minor (2018 – present) Graduate Studies Committee (2019 – 2025) Committee on Handbook Revision of Workload Equivalencies (2022-2024) Chair of Search Committee for Tenure-Track Position in Environmental GIS (2024) Lead the Departmental application to the AGU Bridge Program (2020, 2021) Hiring Committee for Tenure-Track Position in Environmental GIS (2018-2019) Committee on Beck Research Award (2017)

American Association of Geographers

Chair of the Climate Specialty Group (2024 – present) Vice Chair of the Climate Specialty Group (2023 – 2024)

Reviewer of Grant Proposals for the National Science Foundation

Peer-Reviewer of Manuscripts for Scholarly Journals:

International Journal of Biometeorology	Water
International Journal of Climatology	Water, Air & Soil Pollution
Journal of Applied Meteorology and	Weather and Climate
Climatology	

Writing Mentor for Undergraduates in Kent State Geography Senior Seminar (2014)

Local Organizing Committee; 20th International Congress of Biometeorology (2014)

Academic Conference Session Chair/Organizer/Convener:

- International Congress of Biometeorology (2014)
 - Climate & Extreme Event Trends
- o Annual Meeting of the American Association of Geographers
 - 2017: Synoptic Climatology
 - 2023: Synoptic Climatology
 - 2025: Climate Research in Geography (4 sessions)
- Applied Geography Conference
 - 2018: Applied & Synoptic Climatology
- o Annual Meeting of the American Meteorological Society
 - 2024: Applied Climate Science Research in Synoptic-Scale Environments
- Annual Meeting of the American Geophysical Union
 - 2023: Applied Climate and Meteorological Research in Synoptic-Scale Environments

Volunteer; 20th International Congress of Biometeorology (2014)

Guest Discussant; Research & Presentation of Geographic Data – Graduate-level course (Kent State University; Department of Geography) – Quantitative & Qualitative Methods (2019, 2022)

Moderator; Kent State Solar and Sustainability Tour Teach-In (September 2022)

Panelist; Kent State College of Public Health Interprofessional Education Session for Public Health Graduate Students and Registered Environmental Health Specialists (December 2022)

AWARDS & RECOGNITION

Dell Seed Unit Program; Recipient of Prototype Workstation Computer Fall 2021; Workstation valued at \$22,975

University Fellowship Awardee at Kent State University 2013-2014 Academic Year

- Nominee for the David B. Smith Fellowship at Kent State University 2012-2013 Academic Year and 2013-2014 Academic Year
- AAG Climate Specialty Group 2nd Place Finish, Student Paper Competition at Annual Meeting April 2013; \$175

- Kent State University Department of Geography Beck Research Award winner (\$700 total) April 2012 and April 2013
- Kent State University Department of Geography Isenogle Graduate Award Winner April 2013; \$500
- ISEE Scholarship Recipient for Conference Travel August 2012

Kent State University Graduate Student Senate International Travel Grant Awardee (competitive; \$1500 total) Fall 2011 and Fall 2013

Undergraduate Trustee Scholarship August 1999 – May 2003; \$4,000

Kent State University Dean's List Fall 2000, Fall 2001, Fall 2002
